COLLECTS 84 TRAFFIC TICKETS, FINED \$5,349

Year Delay on Dalles Dam Held Likely

Economy Order May Effect Power Delivery Says Lipscomb

Washington (AP)—An administration economy order will produce a one-year delay in delivery of power from the Dalles Dam on the Columbia River, Army engineers said Thursday.

The project will be slowed by the recently ordered cutback in expenditures for the engineers' civic functions program, the office of Sen. Magnuson, D., Wash., was told.

Other Northwest projects will be held up, said Col. T. H. Lipscomb, engineer in charge of the Portland district, to the point of "a calculated risk of inadvertently delaying scheduled dates for project effectiveness."

The nation-wide reduction of \$23 million dollars in available civil functions funds was ordered last month by Maj. Gen. S. E. Sturgis Jr., chief of Army engineers, who acted on directives from the Budget Bureau and the Army.

Chicago—Jerry Levenson (left) is hauled into Speeders Court by Asst. State's Attorney Joseph Depka (center) and State's Attorney John Gulknecht (right) who testified Levenson had collected 84 traffic warrants and had been sought for more than a year. The judge fined Levenson \$5,349 after viewing warrants amassed under his own name and an assumed name. (AP Wirephoto)

4 Million W German Youth To Battle with Red Invaders

POW Exchange Completed on Next Monday

Fannunjom (AP)—The Communists and the United Nations command Thursday agreed to complete the prisoner exchange by Sunday.

The Communists at a meeting of the repatriation commission said that if for some reason they were unable to meet the Sunday deadline they would notify the U. N. command before noon Saturday.

This means the early exchange of Maj. Gen. William Dean, the highest ranking allied captive in Red hands. He now is at nearby Kaesong, and it is believed he will be the last prisoner exchanged.

Carl Fastest Military Flier In the World

Edwards AFB, Calif. (AP)—Lt. Col. Marion E. Carl, USMC, was acclaimed as the fastest flying military pilot in the world today after hurling his Douglas Skyrocket at 1143 miles an hour.

The tall ace, who only a week ago soared to a new world's altitude record of 83,235 feet, also became the world's second fastest human in breaking the military speed mark yesterday.

Carl missed by only 95 miles an hour breaking the world speed record of 1298 miles an hour set by a civilian test pilot, Bill Bridgman, in the same plane last year.

The World War II ace made his speed run over the Air Force's secret testing grounds at this Mojave desert Air Force base.

Arrest 7000 in Seeking to Raid Sunday's Vote

Bonn, Germany (AP)—Four million of West Germany's youth girded today to battle communist invaders threatening to upset their nation's crucial parliamentary elections Sunday.

Police have nabbed over 7,000 saboteurs bent on fighting from the Soviet East zone, but the influx continued unabated.

A spokesman for the Bonn government announced last night that two big youth organizations have volunteered to help combat what he said was a Kremlin plot to sabotage the balloting by creating chaos. The two volunteer groups are the Federal Youth League Bundesjugendring and the German Sport Association Deutsche Sport Und.

Conductors Call off Strike

Washington (AP)—The government Thursday announced the order of Railway Conductors has cancelled a strike called for Sept. 10.

The National Mediation Board said that representatives of the carriers and the Conductors Union had agreed to postpone negotiations on the issue until after Oct. 1.

That is the date other major railroad unions are expected to file new demands for increased pay and improved working conditions.

Record Fine in Traffic Case

Chicago (AP)—Fines totaling more than \$5,000 were assessed against a motorist yesterday and the judge said the penalty was the highest ever made for traffic offenses in the United States.

Jerry Levenson, alias L. J. Bowen, 27, was fined \$5,349 on 71 traffic violations, most of them speeding. Police had hunted him for more than a year but said he had eluded them by changing homes and jobs frequently.

Governor Cancels Sale of Beer at Fair

Gov. Paul L. Patterson Thursday reversed a decision by the State Fair Commission Wednesday to permit the sale of beer at the State Fairgrounds this year.

The application for sale of beer at the grandstand of Lone Oak Race Track during the fair has been withdrawn, and the license cancelled, Patterson said.

The governor said the State Fair commission, which is faced with the problem of making the fair self-supporting, had carefully considered the request before granting the permission to apply for a temporary beer dispensing license.

Coordinating Board Named

Denver, (AP)—President Eisenhower Thursday created a new operations coordinating board under the National Security Council to strengthen "the security programs of the United States in the world struggle."

The President signed an executive order providing for abolition of the old psychological strategy board within 60 days, and shifting its function to the new unit.

"The main purpose in establishing the new board is to provide better coordination in carrying out the security programs of the United States in the world struggle," a statement issued at the summer White House said.

Ike Shifts to Part Time Work

Denver, (AP)—President Eisenhower shifted from a full-time to a part-time vacation today.

The President returned here late yesterday from a week's rest at the Colorado Rockies ranch of his old friend Aksel Nielsen, at Fraser on the western slope of the Continental Divide.

There he fished, worked on an oil painting of the Rockies, cooked for his party, and got in a lot of just plain loafing. The only interruption on the business side all week was to make public a message assuring the Prime Minister of Iran sympathetic American consideration of that nation's urgent appeal for economic aid.

Seaton Named Defense Aid

Denver (AP)—President Eisenhower Thursday picked former Sen. Fred A. Seaton of Nebraska to be an assistant secretary of defense.

The President gave Seaton, a Republican, a recess appointment which is subject to Senate confirmation when Congress reconvenes in January.

Eisenhower also appointed Hugh S. Cumming, Jr., a career diplomat, to be ambassador to the Republic of Indonesia. That selection, too, is subject to Senate confirmation.

Deadlock in Phone Strike

Portland (AP)—Negotiations were deadlocked Thursday, but the CIO Communications Workers held out hope of an early settlement of a contract dispute with the Pacific Telephone Co.

The negotiations were recessed by Federal Mediator Bob McClelland because of lack of progress.

Despite this, Arne Gravem, union director for Oregon, said he felt another session would break the stalemate, explaining that both sides already have agreed on pay boosts of \$1 to \$3 a week.

Tualatin Faces Project Delay

Hillsboro (AP)—The Tualatin valley project cannot become a reality for years, Col. Thomas Lipscomb, head of the Portland district army engineers, said here Wednesday night.

He made the statement in the course of a sometimes stormy hearing on the feasibility of the \$37 million project.

The army engineers will report later on whether they believe the project worthwhile. The project is proposed for flood control, irrigation and to provide domestic water supplies. The channel of the river would be straightened and deepened, and a storage dam would be built near Gaston.

Warren Not to Be Candidate

Sacramento (AP)—Gov. Earl Warren, California's only three time governor, announced today he will not be a candidate for re-election in 1954.

Warren's statement confirmed long standing rumors that the 62-year-old Republican chief executive was preparing to end his political career in California.

But his announcement, a brief mimeographed statement of 260 words, said nothing about the possibility of his winning an appointment from President Eisenhower to some important federal post.

Cooler Air for Central West

(By The Associated Press)
A mass of cool air—the first welcome relief from the prolonged heat wave—moved into the mid-section of the country Thursday.

But in the eastern quarter the heat, and in some sections humidity, held a vise-like grip on the weather.

At least 114 deaths were attributed to the high temperatures, which set records almost daily in every state of the swelter belt. Millions of dollars in crops were ruined by the sun and lack of moisture.

The cool air moved into Montana, Wyoming and Colorado Wednesday night. Snow, sleet and ice forced closing of an entrance to Yellowstone National Park. Temperatures dropped to freezing and just above that mark.

Wilson Pledges Strong Defense

St. Louis (AP)—Secretary of Defense Charles E. Wilson told the closing session of the American Legion national convention Thursday that in the foreseeable future "we must not again let our military strength drop to anything like the low level" that existed after World Wars 1 and II.

Wilson said the Korean invasion brought home to the people the realities of the situation that exists in the world today.

"Since our military strength over a period of years is so dependent on the economic strength of the nation," he said, "it is especially important in our military effort that we develop the best possible military plans and that we organize our military efforts for maximum effectiveness and efficiency over a period of years."

Secrecy Lifted From 'Scorpion'

Los Angeles (AP)—Secrecy was removed today from Northrop's F89D, Scorpion, the world's heaviest armed fighter plane, which can destroy the biggest bomber with a single rocket.

Northrop Aircraft, with the authorization of the Air Force, revealed that its deadly fighter can knock down any plane in the sky with a direct hit by any of its 104 folding fin rockets.

The great number of missiles carried by the plane enables it to make as many as three passes at a single target or attack three different targets on a single flight.

Weather Warms Up For Fair Opening

The weather is really "warming up" for the weekend and opening of State Fair, if weather reports run true to schedule.

The general forecast calls for fair and warmer weather tonight and Friday with the maximum tomorrow to be around 92.

Thursday came as a near perfect summer day, clear, and enough breeze to keep it comfortable. The maximum Wednesday went to 80.

So far, September has registered no rainfall. Normal precipitation to this time of the month is .10 of an inch.

Shah Heads off Tribal Revolt

Shiraz, (AP)—A special envoy from Shah Mohammed Reza Pahlevi—backed by a show of force—apparently has averted a revolt by the powerful Ghashghaies tribe and staved off an invasion threat to this historic Iranian city.

All Heyat, governor of the Fars region, who trekked into the tribal area to consult leaders of the warlike people, declared yesterday that the situation was "satisfactory" and "any hypothetical danger has been averted."

The Ghashghaies were strong supporters of ex-Premier Mohammed Mossadegh, ousted by a pro-Shah uprising Aug. 19. The tribal chief, Mohammed Nasser, fled to the surrounding hills. Army intelligence reported he and his 200,000 warriors were preparing to invade Shiraz, a city of 115,000 in south-central Iran.

Army Refuses to Give McCarthy Loyalty Data

New York (AP)—The First Army Thursday flatly refused to surrender loyalty data requested by Sen. McCarthy (R-Wis.) in his probe of Communists in the armed forces.

The turnaround obviously dismayed the Wisconsin senator. He spoke of appealing directly to Defense Secretary Wilson or President Eisenhower.

McCarthy had asked for the names of Army personnel who gave loyalty clearance to civilian employees suspected of Communism.

One such female employe, not identified by name, had access to Army data on troop movements and McCarthy labeled her "100 per cent Communist."

Col. Wendell G. Johnson of the First Army intelligence staff wrote McCarthy in part:

SPANISH WAR VETS

Cleveland, (AP)—John U. Shroyer, Shamokin, Pa., was installed today as commander of the 47,000 member United Spanish War Veterans, succeeding Dan S. Hewitt of San Francisco.
