## Accused Held Innocent, But Radar Test Lacking

Salem's first speeder to plead innocent on a radar-checked charge of violation of the basic rule was ruled innocent Thursday afternoon by Municipal Court Judge Douglas Hay, but the legality or reliability of the radar was never questioned in the trial.

Otis Arthur Babcock, Dallas, was not guilty of a violation of the basic rule even though he admittedly was going over the designated speed limit at the time, Judge Hay ruled.

The ruling was based on the testimony of Babcock, his wife and police officers that Babcock's car had just entered the city and was slowing down at the time, it had crossed no intersections, traffic was not heavy and there was no pedestrian traffic.

## Sweden Asked To Ask China

Washington (AP)—The United States has formally requested the Swedish government to ask Red China whether the Communists would attend a Korean peace conference Oct. 15.

Sweden, which has an embassy in Peking, is instructed to give the Communists the choice of three conference sites—Geneva, San Francisco and Honolulu.

U. S. diplomatic officials who disclosed this Friday said the request was made in a note delivered Thursday to the Swedish foreign office.

The American note, officials said, expressed readiness to consider Communist proposals for another conference place if the Reds find all three proposed sites unacceptable.

## Stolen Safe Is Recovered

A 250-pound safe in the burglary of the Freres Lumber company office in Jefferson Tuesday night was found Thursday by county and state officers south of Turner.

The safe had been opened and presumably ransacked and then was drenched with gasoline and set afire, they said. The intense heat completely destroyed all ledgers and other papers and records in the safe and charred and blackened the hull. About \$50 in cash that had been in the safe was presumed taken by the thieves.

Officers were still investigating the case Friday along with the Wednesday night burglary of the Central Sawmill and Manufacturing company at Aumsville in which 20 payroll checks were taken. The checks were completely made out except for the signatures, company officials said. Nothing else was believed taken.

Albany—Operations will be resumed Tuesday at the Albany Plylock plant of the M & M Woodworking company, it was announced Friday by E. V. Bennett, local manager. Full production will be restored at the plant as soon as possible Bennett said.

## No More Draft For Doctors

Washington (AP)—The Defense Department announced Friday no more physicians will be taken into the armed forces for the time being.

"No further draft calls for physicians will be made and no more volunteer medical officers accepted until such time as losses create new vacancies," the announcement said.

There was no mention of the situation as to dentists or veterinarians.

The explanation given on physicians was that an unusually large number volunteered for service shortly after the doctor draft act was extended for an additional two years and the August draft call for doctors was announced.

The Army, in fact, now has so many volunteer doctors that it is assigning some 500 of them to the Navy and Air Force, the Defense Department said.

In August 542 physicians were drafted. The number drafted since July 1951 is 5,754.
