November Wet Plan Telephone Cable And Also Warm System Across Atlantic

November was a bit wet but temperatures were above normal, too, the monthly weather report reveals. A total of 6.99 inches of rain came down for the month, or, 1.03 inches above the normal.

The precipitation was heavy compared to November a year ago when but 1.73 inches were measured. Oddly, the fall this year was the exact total for the month in 1952, 6.99 inches.

The all-time mark on record here is 13.33 inches recorded for November in 1942.
