LITTLE BOY IN HIS DADDY'S SHOES...

Imitation is one of the basic impulses of human life. From earliest infancy man has learned the ways of life and the paths of progress by imitating others who possess and practice such knowledge. The child learns to walk as the fledgling learns to fly—by imitating its parents.

The impulse to imitate others is stronger in infancy and childhood than at any other period in life. The child is anxious to learn things and to be able to do things as grown-ups do in this great, big interesting world. That is why the little boy in the picture tries to walk in his daddy's shoes.

Children learn to walk in their parents' footsteps in many ways, during this formative period of their lives. They acquire their habits, their mental attitudes and their sense of values mainly from their elders. And these are the things that will most largely determine their characters and shape their courses in the years to come.

This makes it all-important for people to walk uprightly before their children, and lead them in the ways of strength and safety.

Above all, parents should teach their children the dependence of all life upon God, and the value of religion and the Church as the guardian of man's spiritual existence. And this must be done, line upon line and precept upon precept, in practice as well as in words.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
