NOW! 80% BRIGHTER, CLEARER PICTURES

ADMIRAL ALUMINIZED PICTURE TUBE

With Sensational New!

AND EXCLUSIVE OPTIC-FILTER

Only from Admiral comes this twin TV triumph... the brilliant all-new Aluminized Picture Tube plus scientifically tinted Optic Filter... a life-time sealed twosome that does what neither could do alone!

Admiral's Aluminized Picture Tube works its magic with mirrors... a microscopically thin aluminum mirror coating applied behind the layer of light-producing phosphor crystals on the inner face of the picture tube. This ultra-thin mirror beams the picture forward to the viewer—including light formerly dissipated inside the picture tube—and giving an 80% brighter picture that won't "wash out," even in sunlight!

Admiral's exclusive Optic Filter then goes to work on this nearly twice-as-bright picture, just as a photographer uses a filter to give his pictures more depth and clarity. The deep tones are intensified, the light tones are clarified—haze, glare, and reflections are wiped out! The result: television's finest picture, by far... yours only from Admiral!

C2516—Revel in the bigger-than-life realism of this more than 335 sq. in. aluminized picture with exclusive Optic Filter... framed in the gleaming luxury of Admiral's Golden Picture Frame... powered by the Deluxe Super Cascade Chassis! Has Turret Tuner guaranteeing single-dial tuning for VHF and UHF... "DX" Range Finder... full fidelity Tone Control. Rich, hand-rubbed mahogany or blonde cabinet to grace your home for many years of enjoyment.
