Christmas Behind Iron Curtain Most Miserable

Venna (AP)—It looks like this is going to be the most miserable Christmas yet for 70 million East Europeans living behind the Iron Curtain. No Santa Claus, no Christmas trees, few presents, nothing special to eat. Almost everywhere in Eastern Europe, Christmas used to be the great Christian festival of the year. Now the communists are doing their best to wipe it out. In fact, families who make a point of observing the traditional festivities will run the risk of trouble with the Reds. There will be no problem for millions of parents in choosing toys that will suit junior best. First of all, the exchange of gifts is frowned upon. Second, the communists admit that what toys there are are likely to fall apart. There may be 'community parties for the kids, but they will be on New Year's Day instead of Christmas. And a typical party game they will play in Poland is called "How well do you know the six-year plan?"

Wide Areas Hit by Snow

(By The Associated Press) Wintry weather hit wide areas of the eastern third of the nation Tuesday. Snow or rain fell from Lake Michigan to the east Coast with heavy falls of snow over the Ohio Valley.

The coldest weather of the season chilled the central part of the country. It was 5 degrees below zero in International Falls, Minn., on the Canadian border. Temperatures were in the 20s in parts of Kentucky and Tennessee. Colder weather appeared in prospect for the mid-continent Tuesday night. The mid-December snowstorm Kentucky, with Corbin report extended as far as Southern Ohio, with 5 inches. The snow extended into New Hampshire, Maine and parts of New York State.

Rain ended along the Eastern seaboard after heavy falls Monday from North Carolina northeastward to Southern New England. New York City's rainfall measured nearly 2 inches. Mild weather continued over most of the far Southwest. It was a warm 88 in Los Angeles Monday.

POLICE PROBE BLAST

Beirut, Lebanon (AP) — Lebanese police are investigating an explosion near the Beirut headquarters of the former Mufti of Palestine Sunday night. The blast caused considerable property damage but no casualties.

The crewmen's contract with West Coast expired Feb. 1, 1953. They set last Thursday as a strike deadline when negotiations broke down recently but later suspended the action.

Christmas trees, with red stars instead of angels on top of them, have new names. They are called "winter trees," or "trees of the republic," or "New Year's trees." Santa Claus and all his equivalents have disappeared. Now it's "Grandfather Frost," who comes by special express train from Moscow. Kids think of "Grandfather" in Russia, instead of Santa at the North Pole. Czechoslovakia's President Antonin Zapotocky summed up the new attitude on Christmas behind the Iron Curtain: "The story of the birth of the Christ child is only an exploiters' myth. . . . Times have changed. The little Jesus has grown up and now is Grandfather Frost. He no longer is in tatters and naked, but well dressed in a fur hat and coat." In Poland, Hungary, Romania and Bulgaria, communist leaders have made identical statements. What they mean is that throughout all East Europe, predominantly Roman Catholic, the religious significance of the holiday is being suppressed and a drive is under way to eliminate it entirely. The aim is to substitute New Year's Day as a celebration of the economic planning year.

Strikers Vote On Wage Hike

Los Angeles (AP) — Striking North American Aviation, Inc., employees in Fresno, Calif., have ratified a union-management agreement providing a 4 percent wage increase. Workers at the plant here and in Columbus, Ohio, ballot today. The agreement was reached by negotiators here early yesterday, presaging an early resumption of warplane production. Some 33,000 workers in the three plants left their jobs Oct. 23. The agreement between the North American and the CIO United Auto Workers came a few hours after new contracts had been ratified by 35,000 employees at Lockheed Aircraft Corp., and Douglas Aircraft's Santa Monica plant. Employers of these companies did not strike.

The North American vote at the Fresno plant last night was 347 to 38 in favor of the agreement, a company spokesman said.

The crewmen's contract with West Coast expired Feb. 1, 1953. They set last Thursday as a strike deadline when negotiations broke down recently but later suspended the action.

'Free Books' Not Free to Lawyers

Washington (AP)—In line with its new policy toward use of the word "free" in advertising, the Federal Trade Commission today dismissed a complaint against Doubleday & Co., Inc., of New York.

Last September the commission said it will proceed against use of the term "free" only where the circumstances tend to mislead or deceive the public.

Doubleday had been cited for using "free" and "bonus books" in connection with its operation of several book club plans. The now-dismissed complaint had charged the books offered weren't really "free" because persons getting them had to buy at least four other books.

Airline Crews Vote on Contract

Seattle (AP)—West Coast Airlines ground crewmen in four Northwest cities are voting on a compromise contract proposal worked out at a Chicago conference in an effort to head off a threatened strike.

Some 60 crewmen in Seattle, Portland, Spokane and Boise started voting Monday night, Tom Temple, international representative of the AFL International Assn. of Machinists said, and results will be reported Wednesday.

Temple declined to reveal terms of the proposal which he said resulted from a weekend conference in Chicago of union-management representatives and the National Mediation Board.

The ground crewmen demanded a 9-cent an hour wage increase and fringe benefits. Temple said. The present scale ranges from \$1.46 to \$2.33 an hour.
