Quick freezing is the modern miracle that makes it possible for Safeway to bring you turkey at its very best.

Here's why: The birds go into the freezer WITHIN AN HOUR after being completely cleaned inside and out. There's no chance for the meat to lose its "just-dressed" flavor. All the preparation — killing, cleaning and freezing is done as one continuous operation in the most sanitary plants, by skilled workers—and under U. S. Department of Agriculture supervision. Every step of the way — from selection of the birds from the country's finest flocks—to their display in our stores — gentle care is taken to assure that you get a turkey that will eat tender, sweet and juicy.

This operation applies to every turkey Safeway sells. So whether you buy a small Beltsville Turkey or our largest Tom, you can be sure that you are buying the very finest turkey your money can buy. Even folks who live on turkey farms and can pluck, dress and get their birds in the oven within a few hours can't enjoy any fresher tasting turkey than you can with a QUICK-FROZEN TURKEY FROM SAFEWAY.
