More women over 35 look younger with Helena Rubinstein's Estrogenic Hormones

ESTROGENIC HORMONES ARE SINGLE MOST EFFECTIVE BEAUTY AID IN HELPING AGING SKIN RETAIN MOISTURE

There's a new "young" generation on the scene today — matrons, grandmothers — vigorous, attractive, exciting women who reject the "old look"! There are thousands of them who have been discovering, since Helena Rubinstein launched her Estrogenic Hormone preparations nine years ago, the most successful way to keep their complexions looking younger.

Doctors have found that nature's own estrogen supply begins to wane after 35. As a result, your under-skin loses the natural moisture necessary to keep it filled out and smooth... and your outer skin actually tells the world about it through dryness, through gradual creasing of face and throat.

But you can help your skin retain its precious moisture with Helena Rubinstein's Estrogenic Hormone twins...the Cream on the face, the Oil on the throat. Fine lines and wrinkles disappear...a miracle you can see for yourself after 30 days of use. Take advantage of Helena Rubinstein's once-a-year special-price offer...and face your public with a freshness and bloom that will make you proud to admit your age!

Richard Hudnut announces Spray and Stay

Glamorous new spray-on hair net makes your hair-do stay... the way you want it, for as long as you want it!

Spray this finely atomized, delicately fragrant liquid on your hair, and your set stays "just so" in spite of rain, wind or humid rooms. Spray and Stay leaves your hair naturally soft and shining, and gives it the good, firm body needed to hold the new hair-dos beautifully, perfectly in place. Contains vacuum purified lanolin in condition as it controls. Wonderful as a pincurl setting lotion, too!

CHECK THIS CHART! Ask yourself these questions about the hair spray you are now using!

- Does it give hair a hard, stiff, varnished feel?
- Does it leave wispy ends, unruly curls, coarse, artificial look?
- Does it dull-coat the hair?
- Does it form dry, flaky residue?
- Make it "greasy" and sticky?
- Is it hard to comb and brush out?
- Does it "let go" in damp weather, or steamy bath?
- Is it hard to comb and brush out?

Just press and spray away all these hair problems with Spray and Stay!
