More women over 35 look younger with Helena Rubinstein's Estrogenic Hormones

ESTROGENIC HORMONES ARE SINGLE MOST EFFECTIVE

BEAUTY AID IN HELPING AGING SKIN RETAIN MOISTURE

There's a new "young" generation on the scene today — matrons, grandmothers — vigorous, attractive, exciting women who reject the "old look"! There are thousands of them who have been discovering, since Helena Rubinstein launched her Estrogenic Hormone preparations nine years ago, the most successful way to keep their complexions looking younger.

Doctors have found that nature's own estrogen supply begins to wane after 35. As a result, your under-skin loses the natural moisture necessary to keep it filled out and smooth... and your outer skin actually tells the world about it through dryness, through gradual creasing of face and throat.

But you can help your skin retain its precious moisture with Helena Rubinstein's Estrogenic Hormone twins... the Cream on the face, the Oil on the throat. Fine lines and wrinkles disappear... a miracle you can see for yourself after 30 days of use. Take advantage of Helena Rubinstein's once-a-year special-price offer... and face your public with a freshness and bloom that will make you proud to admit your age!
