

### Paperboard Mill To Be Rebuilt

LONGVIEW, Wash. (AP) — Mark Andre, Los Angeles manufacturer, announced Tuesday the partial purchase of the Pacific Paperboard Co. of Longview. He said he plans to build a paperboard plant here.

Andre, owner of the Andre Paper Box Co., Los Angeles, said the new plant would be erected on the site of one destroyed in a 2 million dollar fire Jan. 11, 1952.

The burned-out plant was owned by Pacific Paperboard, which received 1,800,000 in insurance money but was prevented by the Reconstruction Finance Corp. from using it to rebuild. The RFC had first claim on the insurance coverage.

Andre said he could not give a definite date for the start of construction until completion of an engineering survey. He said he also holds an option on the pulp mill which has been Pacific Paperboard's sole operation since the fire.

The amount involved in the transaction was not disclosed. The only figure listed was 72,700 paid by Andre for the mill site.

Pacific Paperboard, an all-Longview concern, had a payroll of 300 and produced 100-125 tons of paperboard daily before the manufacturing plant was razed.

Paperboard is a heavy cardboard used in making boxes, cartons, etc.

### Gas Hearing Recesses Again

WASHINGTON (AP) — The Pacific Northwest Natural Gas hearing resumed briefly Tuesday, then recessed again until Wednesday.

W. C. Spooner, chief geological witness for Westcoast Transmission Co., was in the Power Commission hearing room but attorneys recommended another 24 hour delay to permit his complete recovery from a cold which stalled the resumption of the hearing Monday.

Meantime, E. A. Hugill, assistant secretary of the Shelly Oil Co., New York, identified a letter of intent indicating willingness to dedicate to Westcoast Natural Gas underlying certain Alberta acreage.

Rival attorneys moved to strike both his testimony and the letter, however, when Hugill said he was unable to testify concerning information which the letter contained. Examiner Daniel J. Kelly told Robert May, West Coast attorney, that as the record now stands he would be inclined to approve the motion but would defer a decision until later.

### Wider Trade With Reds to Be Promoted

WASHINGTON (AP) — Harold Stassen, the government's foreign aid chief, has disclosed an administration decision to permit wider trade with Communist countries in non-strategic items.

But he said Monday that the government has put an even tighter clamp on trade in strategic materials and goods.

Stassen emphasized that Communist China still is out of bounds for all trade and that the new policy applies only to other Red areas.

He said such products as cotton, rubber, drugs and pharmaceuticals no longer are banned for shipment to Communist customers.
