Ways and Means Says Revenue Loss Less Than \$240 Million

WASHINGTON on — The House Ways and Means C om mittee Thursday approved sharp cuts in personal income taxes on income from dividends. Experts said the revenue loss would be 240 million dollars the first year and up to one billion when the program takes full effect.

effect.

The proposed changes would apply to some four million persons who receive income from dividends. About one third of these would be relieved of any taxes at all on their dividend income.

This was the second major step announced in a complete overhaul

announced in a complete overhau of tax laws launched by the committee Wednesday. The first agree ment would provide 50 million dollars in tax savings for about 700, 000 single heads of households. Democrats Oppose

Democrats were reported to have raised some opposition to the program of relief for dividend recip

The proposed new law provides that individuals pay no income taxes on dividends up to \$50 annually received in the taxable years ending from next July 31 to Aug. 1, 1955.

For taxable years ending after Aug. 1, 1955, individuals would pay no income taxes on dividends re-ceived up to \$100.

start again.

There was no noticeable movement of the earth Wednesday, the first full day in which the slippage apparently was at a complete halt since sliding started a week ago.

About one house a day can be moved. They are being put in a parking lot while the city land department tries to find suitable sites. It has not been determined how many of the affected 26 houses will be moved. All but one are believed salvageable.

The Red Cross is checking on the amount of financial help the hemeless families will need, including cost of house moving and getting

## No Support For Strike Vote

WASHINGTON WE—A poll of the Senate Labor Committee Indi-cated Thursday practically no support for a proposal calling for strike votes among employes who

WASHINGTON (UP)—A reclamation Bureau engineer said today that land and other incidental costs of a high government dam in Helis Canyon would run about 10-million dollars more than such costs for three smaller dams which the Idaho Power Co. proposes to build.

The cost comparison was made at a Federai Power Commission hearing by Ed Koessner, project engineer in the bureau's Boise, Ida., office.

Koessner said it would cost sabout 35-million dollars to purchase land and land rights and when he recommended in his

special session of the legislature.

He said he had been in conference with business and labor leaders and pointed to his request to the Oregon Development Commission, made public Wednesday, for plans to provide jobs.

On the Democrats' proposal that the special session also take up the question of power development and rates. Patterson said he preferred to work that out in his own way. He said he and in the bureau's Boise, Ida., office.

BOISE (UP)—The power commission to development and rates and pointed to his request to decide the question of when the strike vote should be taken by the government. He said all he had in mind when he recommended in his special Taft-Hartley message server, government-supervised elections in strikes, was the principal counsel for the business and labor to purchase land and land rights and bridges for a dam such as public power advocates want. Similar expenditures for three low dams would run about 25-million, he said.
