Meacham, always one of Oregon's coldest spots, reported a reading of 22 degrees below zero this morning. Both The Dalles and Pendleton reported minimums of five below zero this morning. Astoria on the coast listed 24 degrees, a rare low for that area, and Newport reported 27. Downtown Portland registered 17 above.

One Kidnaper

out harm carries a penalty of life with the possibility of parole. Up to the Jury. Moskowitz said he was not injured, but Dist. Atty. Thomas Lynch told newsmen the interpretation of bodily harm is up to a jury, which could decide that cruel bonds or the like could mean injury. Moskowitz was bound and shackled during most of his imprisonment. The two men arrested were seized separately. The first, Joseph William Lear, 43, of Sacramento, Calif., was caught in a telephone booth making a ransom call to the victim's identical twin and constant companion Alfred. Police said Lear broke down and led them to a rented house, where a stocking-foot raiding party broke in, rescued Moskowitz and arrested 57-year-old Harold Jackson of Sacramento as he stood in his shorts. Jackson was shivering with fright, said Inspector Al Nelder, who nailed him. The arrests ended the biggest San Francisco manhunt ever—and broke the best-kept secret of years. On police request, all news outlets had voluntarily held back the story until Moskowitz was safe.

Reds Protest

However, North Korea's Pyongyang radio said the so-called "de-stroys" the armistice agreement and tramples authority of the Neutral Repatriation Commission. Quoting Red correspondents at Panmunjom, the broadcast said U.S. armed troops surrounded the anti-Red camps, took the prisoners by force and then handed them to South Korean agents. The transfer went smoothly despite minor hitches and a cold drizzling rain. At least twice the southward flow of prisoners was interrupted. No Koreans appeared for an hour early in the evening, but there was no explanation. Earlier a dispute over a prisoner asking repatriation halted the movement of Chinese prisoners. Free Pro-Reds. A handful of American, British and South Korean prisoners who chose to stay with the Communists remained in their neutral zone compound. The Indians planned to turn them back to the Communists, but the Reds refused to take them. U. S. Army Secretary Robert Stevens, here for the prisoner transfer, said any of the 21 Americans who asks for repatriation before midnight Friday would be welcome to return home. Under Allied interpretation of the Korean armistice all unrepaired war prisoners are to be freed as civilians at midnight Friday. The Communists wanted them kept in custody until a peace conference decides their future. Sail for Formosa. The first of 14,321 anti-Communist Chinese prisoners returned to the U.N. Wednesday were sped to Ascom City by truck. Then they boarded U.S. landing ships in nearby Inchon harbor and were scheduled to sail for Formosa early Thursday. The voyage will take about four days. Camp Adair

In addition a modern sewer system and sewage disposal plant has been constructed by the government on the property and are available for sale. No Cost to State. Negotiations with the Defense Department are under way, it being understood the government will deed the property to this state at no cost, if negotiations are successful. L. R. Teeple, chairman of the Oregon Development commission informed the governor that a number of concerns in various parts of the country have shown interest in locating plants in the Camp Adair area if the property is acquired by the state and made available for industrial development.

New Jobs Sought

Members of the development commission, Teeple said, are devoting time and effort toward attracting new industries to the state, as one means of providing new jobs so sorely needed to offset the unemployment caused by the shutdown of seasonal employment. Governor Patterson also announced he was investigating the possibility of utilizing some of the buildings on Camp Adair for storage of surplus wheat. It has been proposed that vessels in the mothball fleet in Astoria be used for storage but the governor said that he had been informed that the wheat surplus is so large that the Camp Adair building may be the temporary answer for additional storage space for the wheat.
