

Chief Joseph Ahead Schedule

WASHINGTON (AP)—Construction of Chief Joseph Dam is running ahead of schedule and completion of McNary Dam should be on time "except for possible delays in equipment deliveries," Rep. Westland (R-Wash.) was advised Tuesday.

The Everett congressman said the progress report on the two Columbia River projects was received from Brig. Gen. D. G. Shingler, head of the North Pacific division of Army Engineers at Portland, Ore.

Westland said the information came in answer to his request as to whether the projects had been delayed in the past year.

He said he had read and heard "so many contradictory" reports on the two projects that he wanted to know the true situation.

Group of Scientists Hold Smoking Not Bringing Cancer

NEW YORK, UP—A group of cancer scientists reported to the American Cancer Society today that cigarette, cigar, and pipe smoking did not appear to be "associated significantly" with cancer of the mouth.

Their report touched on a key point of the minority of cancer research scientists who are skeptical of the theory that cigarette smoking may be a major cause

of lung cancer. The minority argues that cigarette smoke fills the mouth, and in full strength. When it is inhaled, it fills the nasal passages. But comparatively minute amounts reach the lungs, and then it is diluted.

No Increase Why is it, this minority asks, there hasn't been an increase of mouth and nasal passage cancers

over the period of greatly increased cigarette smoking, comparable to the increase in lung cancer?

Today's report was on studies made by Dr. George E. Moore, Lester L. Bissinger, and Elsa C. Proehl at the University of Minnesota medical school of the possible causes of mouth cancers. Statistically their studies pointed a finger at chewing tobacco, as

well as snuff, while more or less exonerating smoke, whether from cigarettes, cigars, or pipes.

Of 40 men treated at the medical school's hospital for mouth cancers since 1951, 26 were long term tobacco chewers or snuff users, they said. Of 23 with mouth leukoplakia, which is a change of tissues regarded by some scientists as "pre-cancerous," 18 were chewers or dippers.

Dick Contino Out of Army

GLENDALE, Calif. (AP)—Dick Contino, onetime \$4,000-a-week accordionist who served a term for draft evasion, is out of the Army and belatedly celebrating Christmas.

Contino, 24, was inducted in May 1952, after spending 4½ months in

federal prison. He was sent to Korea five months later. "I made the best of it, and I'm glad it's over," he said when he reached his home. A Christmas tree, gifts and 50 neighborhood friends were waiting for him.

One of his gifts was a new accordion. He said he hoped to get a job in the movies or television soon.
