## SARAN...

A miracle synthetic produced by Dow Chemical Co. has been made into a static-producing yarn for this new house-keeping marvel.

A stroke of the mop creates magnetic action which attracts and holds dust and dirt until shaken clean.

This moth-proof, flame-proof material leaves no lint.

The gold colored mop-head snaps off the sturdy steel frame for easy washing in cold or warm water—dries in a few hours and will never rot or mildew.

It can be used on walls or ceilings as it contains no oils.
