

MOTHERS MARCH THURSDAY

Due Thursday evening is the annual Mothers March for polio funds. Mrs. Roy Hamilton, shown above with her two children, Rodney, 3, and Pamela, 5, was stricken with polio in 1949 and gets about in her wheel chair. Last year, the Mothers March supplied \$7005 toward Marion county's drive for polio funds, and this year it is hoped much more may be taken in as the mothers do their bit toward funds going to research to help in prevention of the disease as well as helping in treatment. The Mothers March Thursday will be between 7 and 8 p.m. in all parts of the county, the mothers to stop at all homes where porch lights burn.

Students, Cops Clash in Spain

MADRID, Spain (AP)—Spanish students and police clashed here Wednesday for the third day in succession and again there were wounded on both sides. At one time some of the students blockaded themselves in the university when police officers tried to enter to talk things over. The police wanted to persuade the students to cease their demonstrations which began Monday with a manifestation for the return of Gibraltar to Spain. One of the city's central markets was invaded by the students, who overturned a vegetable stand. The police intervened and a free-for-all resulted. Police headquarters, meanwhile, denied reports published abroad that a student had been killed in Monday's bloody riots.

Auto Driving Course Held Frill

An additional mill would be added to the tax levy of the Salem school district to cover the cost of operating a course of automobile driving instruction for the approximately 740 sophomores in the system. This was the estimate given by Director Gardner Knapp following a report on driver instruction presented by Superintendent Walter E. Snyder during Tuesday night's board meeting. The superintendent stated that several additional instructors would be needed to handle the course which would mean a cost of \$28,000. Cars would be furnished by automobile concerns with the district to take care of the expense of maintenance, gas and oil. While no action was taken, it was evident that the proposal was not greeted with any degree of enthusiasm by the board. Director Harry Scott pointed out that the school system had come in for considerable criticism for adding so-called "frills" to the curriculum. Introduction of a drivers' instruction course would bring more adverse reactions than favorable ones, he added. Chairman Roy Stewart stated that the firm with which he is connected had inaugurated a driver's instruction course some time ago. At no time has the program broken even, he added.

SHEPHERD IN A TROUBLED LAND

The traditional shepherd's crook of biblical times has been replaced by a rifle in the troubled Holy Land. An Israel herder keeps his weapon handy as he walks his flock, a common sight on both sides of the Israel-Jordan armistice line. The fighting ended in 1948 but bloody incidents have been frequent along the border. (AP Wirephoto)

SAIGON (AP)—The Communist-led Vietminh Wednesday launched a strong offensive on a 187-mile front in central Indochina.
