Some Notations

By M. L. F.

From the Republican National committee comes a news release stating there is an all-time high number of women in state legislatures, 303, the survey on the subject having been completed by Miss Bertha A. Adkins, assistant to the chairman of the Republican National committee. Of the 303, more than two-thirds are republicans in the various states, the survey breakdown shows. Of the total of 303, 22 are in senates, 281 in the lower house. The 1954 total is a gain of 14 over the early 1953 figure. Beginning with a total of 29 women in legislatures throughout the country in 1920, the figure has steadily grown to reach the 303 mark for early 1954. Oregon had but two women in the last legislature — 1953 session — both in the house, two Portlanders, Maurine Neuberger and Dorothy Wallace. Following 1953 elections, women are serving in legislatures in all states except three. The survey was the first of the 1954 series made by the women's division of the Republican National committee for its over-all annual issue of "Women in the Public Service."
