**Foresters Plan Joint Ceremony**

SUBLIMITY—The Catholic Order of Foresters is making plans for a joint initiation of the Sublimity, Slayton and Jordan courts, according to State Chief Ranger, T. W. Minden.

The ceremonies beginning at 1:30 p.m. will be held in the COF hall at Sublimity, Sunday, Jan. 31. The degree work will be put on by the Sublimity degree team.

Following the initiation, a banquet will be served by the St. Boniface High School Parents Association at 6:30 p.m. in the parish hall. Proceeds will go for the benefit of the high school.

The principal speaker of the evening will be Father Aleuin of Portland, state spiritual director of the Catholic Order of Foresters.

The program committee has engaged a gaggle of the Gruesome-Twoosome boys, Bob Payne and Larry Springer of Salem for a pantomime number.

**ITALIAN REDS ARRESTED**

MESSINA, Sicily (AP)—Ten Italian Communists have been jailed for plastering posters in downtown Messina lampooning U.S. Ambassador Clare Boothe Luce. Mrs. Luce has been a favorite Communist target since she reportedly warned Washington of a growing Red menace in Italy.

over the Belgian Congo and northern Kenya as far as the Somali-land border, where the writer is making an elephant survey for the Kenya government.

Smith, head of the Far Eastern subcommittee of the Foreign Relations Committee, said in an interview that the pact constitutes a different obligation than the one this country already has under the United Nations Charter to resist aggression.

It was under this obligation that former President Truman rushed troops into Korea when the Communists launched their sudden attack in June 1950.

Smith said that Rhee, the South Korean president, felt the time would come when United Nations troops would be pulled out of his country, leaving him open to another possible attack.

The mutual security treaty between his country and the United States gives Rhee assurance that "we do not intend to forget him," the senator explained.

The Senate vote approval of language, along with the ratification, which makes clear that this country has no obligation to support any aggressive move by Rhee. The pact becomes operative only in event of an attack against either country.

Read how Lucerne's unusual former-dairy program gives you

HERE'S WHAT HAPPENS ON THE FARM. Lucerne is interested only in farms that can produce "Bonus Quality" milk — milk that meets Lucerne's extra-high standards for purity, flavor, and cream-content. These farms are visited regularly by Lucerne fieldmen. They help farmers select their herds... advise them on care and feeding... insist on the highest degree of sanitation in the handling of milk.

HERE'S WHAT HAPPENS AT LUCERNE. To encourage production of "Bonus Quality" milk, Lucerne pays farmers extra money for it. In fact, the higher milk scores by Lucerne's standards — which are substantially above legal standards — the bigger bonus the farmer gets. Then, from Lucerne to you, the milk is protected by the most modern methods known to dairy science.

HERE'S WHY YOU PAY NOTHING EXTRA for Lucerne Milk. While Lucerne pays more for "Bonus Quality" milk, Lucerne distributes it the low-cost way — through stores only. So Lucerne Milk still sells for the lowest price permitted by law.

Give Lucerne Milk a try at your house. Prove the "Bonus Quality" of Lucerne by tasting it. Day after day, it has the same smooth, rich flavor. That's because Lucerne is uniformly richer than our State law requires.
