Your 1953 Income Tax

The Internal Revenue Service is encouraging taxpayers to ask their Federal income tax questions by telephone. District Director R. C. Granquist announced today. "Large numbers of taxpayers can obtain advice and assistance in a minimum of time by using our telephone service," the director explained. "Many taxpayers come to our office with questions which could be answered in a few seconds," Mr. Granquist continued, "and it would save them time and energy if they used the telephone service." The telephone number of the local Revenue office is 3-8262. With no substantial changes in the income tax law since 1952, the director believes that many taxpayer queries result from technical points which the taxpayer has not confronted in the past. The director assured the public that "those taxpayers who prepare their own returns, but encounter a technical problem not answered in the tax return instructions, can get a prompt answer by telephoning my office." The deadline for filing Federal income tax returns is March 15, but as Mr. Granquist says, "Why wait until the last minute?"
