## 'Strike-It-Rich' Defies New York City's Drive

NEW YORK (AP)—New York City's drive against radio-TV giveaway programs that get money from the public was defied last night by "Strike It Rich," first of the shows to be criticized. The program went on the air without changing its format or waiting for the license the Welfare Department said it should have. Welfare Commissioner Henry L. McCarthy yesterday declared that "programs like this are a national disgrace" and "play into the hands of the Communists." The program questions people who tell hard-luck stories. They win prizes by correctly answering the quiz, and then people phone in to offer cash, jobs, homes and other aid. This puts it in the same category as a charity, the Welfare Department rules, and should be licensed. McCarthy's ire was directed at "Strike It Rich" because, he said, at least 55 families, lured by the promise of "easy money," have chanced the program's rainbow from all over the country right onto New York City's relief rolls. The Welfare Department suggested that producer Walter Frazer change the program's format. Warren Hull, the "Strike It Rich" master of ceremonies, briefly told listeners last night about the "Heart Fund," the part of the program under fire. "We have never asked for any contributions whatever," Hull declared and told how the fund is audited. He insisted that it's all gravy for the recipients, none of the money going for overhead. "Some people sort of criticize 'Strike It Rich,'" he said. "I don't get it—it's a funny world."

## Slide Cleared, Trains Roll Again

MAUPIN, Ore. (AP)—Trains began rolling Wednesday night over the Oregon Trunk Railroad, which had been knocked out of service Sunday night by a train wreck. The locomotive of a freight train hit a rock slide and crashed into the Deschutes River near here, carrying two crew members to their death. Repair crews worked steadily three days before getting the line cleared. The line, which follows the Deschutes River through Central Oregon, is an important freight connection between the Pacific Northwest and California.

## Agreements May Fix Tenure of Service

Written agreements may be offered to members of the Reserve components of the Army, Navy, Air Force and Marine Corps by the military departments stipulating the length of active duty tours at one, two, three, four or five years. Purpose of the directive authorizing the agreements is to permit an officer or enlisted man to be voluntarily ordered to active duty or to remain on active duty for a definite period. The secretaries of the military departments are authorized to make such agreements in conformity with the Armed Forces Reserve Act. Priority will be given to critical groups and critical qualifications. Contracts may be renewed upon expiration of the contract period if the renewal is agreeable to the military service and to the reservist.

## Credit Fireman With Saving Boy's Life

PORTLAND (AP)—John Orefice, a volunteer fireman, was credited Wednesday with saving the life of a 5-year-old boy who reached into a medicine cabinet and swallowed pills prescribed by a veterinarian for a sick cow. The pills contained strychnine, and the boy, Wesley Cochell, soon went into convulsions. His mother, Mrs. Kenneth Cochell, summoned firemen. Orefice applied artificial respiration that was credited by a physician with saving the boy. The pills were swallowed Friday. The boy was in critical condition several days, but now is believed out of danger.
