

# Local Paragraphs

**Bennett to Arrive**—A 3/4 Gordon L. Bennett, 710 West Salem Heights avenue, Salem, was among those listed as due to arrive in Seattle Thursday afternoon aboard the James O'Hara. The men are being returned from the Far East.

**Windows Broken**—Vandalism broke windows in two business buildings on South 12th street Wednesday night. A window was broken in the Coca-Cola bottling plant, 1220 South 12th street, and two windows were broken in the Clair Dougherty garage, 1395 South 12th street.

**Treasurer's Report**—County Treasurer S. J. Butler's report for January shows the county had total assets of \$6,611,665.92. Fund balances included: court-house construction fund, \$441,880.57; public assistance, \$52,969.62 and market road maintenance, \$174,143.53.

**Billfold Lost**—The loss of her billfold was reported to city police by Carmelita Hunt, 2730 Pioneer drive, Wednesday. She lay it on a counter in a downtown drug store and forgot it, she said. When she returned a few minutes later to pick it up, it was gone.

**Move to Delay**—Had this motion been allowed, it would have given the defendants an additional 20 days from February 20 in which to file briefs, the time expiring just three days in advance of the final date for candidates to file, March 12.

**Attorneys for Baum** filed a motion for setting the hearing on February 20 which was also denied.

**Early Opinion Certain**—Chief Justice Latourette said that the case would be advanced and assured that if all papers required are filed in time, an opinion from the court would be handed down well in advance of the final date for filing by legislative candidates.

Attorney General Robert Y. Thornton did not join the attorneys for the interveners in the plea for extended time, although he appeared personally in court with the other attorneys who did file the motion.

Had the move the interveners made been successful, it would have meant that the final determination of the validity of the reapportionment measure passed by the voters could not have been determined until after the candidates had filed under the terms of the bill.

Such a situation could have resulted in any number of legal complications, all of which were avoided by the action of Chief Justice Latourette in advancing the hearing date to February 20.

**Senate Group**—He said merely that their purpose was to provide "an economic sound base for Alaska under statehood."

Cordon said the amendments did not affect the substance of the bill, that they were technical in nature and represented the ideas of the committee for establishing an economic base on which the proposed state could operate.

Major provisions of the bill approved by the committee would: include within the proposed state all lands now included in the territory of Alaska and appurtenant waters.

## Reds of East

3. Arranging for the all-German government to represent the split nation during the preparation of the peace treaty and in all international bodies.

4. Immediate action by the rival governments now to organize a joint meeting on procedure.

5. Action by the four powers to prevent "any interference or pressure by foreign powers during the all-American elections."

Molotov threw in a bombshell at this point, in explaining the fifth clause of his plan. He proposed withdrawal of all occupation troops except housekeeping units before the voting.

This would move 300,000 Soviet army troops beyond the Oder-Neisse rivers in Poland, but only about 400,000 would have to go west of the Rhine, more than 300 miles from Berlin, and then only if France would permit it.

Molotov was speaking in response to a demand by French Foreign Minister Georges Bidault that the Big Four get down to brass tacks and stop fiddling with detail.

The British authorities as totally unacceptable. The Russian said his proposal before the conference after he finally rejected the Eden plan calling for free elections first to create a government out of the ballot box.

As soon as he unfolded his idea, each of the three Western foreign ministers at once made it plain that they will not go along with him on such a deal.

American Secretary of State Dulles demohed any Soviet plan would delash the defenses for West Germany and expose it to the vast forces that lay east of it. He told the conference, moreover, that if Germany is to be so exposed, the ministers must recognize that the whole of Western Europe would be similarly exposed.

French Foreign Minister Bidault said he was compelled to wonder how the Eden and Molotov plan would be reconciled and then how the Big Four could even move along the path of conciliation, they are so far apart.

## Exchange Student Tells of French Life

The French are proud of their lineage and believe their way of life is equal if not superior to that of the residents of the United States. This was the impression gained by Howard Saucy of Dundee, Ore., during a five months stay in France as an exchange student from Oregon State college.

Saucy spoke to the Salem Lions club Thursday noon and illustrated his lecture with colored pictures.

Saucy was stationed on two farms while in France. One was operated by a comparatively rich Frenchman who had adopted fairly modern means. The other farm was divided up into small holdings with the family living in a village.

Both farms were in southern France.

Saucy feels that the exchange student plan is an excellent one that tends to bring people of various countries closer together.

## Merit Awards Given 2 Salem Recruiters

During January the Oregon recruiting district, which includes part of the state of Washington, signed 542 men and women for some branch of the Army or the Air Force. That month was the first in which the Air Force was permitted to exceed its quota. They also can exceed the quota in February.

## \$153,103 for Streets Allocated to Salem

The city of Salem was allocated \$153,103.93 out of \$2,614,461.29 of state highway revenues, it was announced Thursday by the secretary of state's office.

The amount represents 10 per cent of the revenue to the highway fund for six months ending December 31, 1953, from motor vehicle registration, gasoline taxes, motor transportation fees and fines for violations of the Motor Vehicle Law.

Allocations to other communities in the Willamette valley were, Dallas, \$16,852; Lebanon, \$20,649; Mill City, \$6,300; Mt. Angel, \$4,623; Sheridan, \$6,757; Silverton, \$11,998; Stayton, \$5,298; Sweet Home, \$12,668; Woodburn, \$9,067, and Willamina, \$3,804.

A change in the plans for a counselling seminar split the audience into three groups. One group heard Dr. Lester Kir Kendall of Oregon State college discuss pre-marital education; another listened to Rev. Edwin Bracher talk on alcoholics and a third assembled to hear Dr. George Randolph discuss sick room counselling.
