"This is the nine-year-old crippled Indian boy named Namu about whom there has been arguments as to whether he is a 'wolf boy,' with medical and psychological men divided in their views. At left is a closeup of the youngster who has a double set of teeth in upper jaw, and crippled hands. Center, he is assisted in efforts to teach him to walk. At right, he drinks by licking it with his tongue. (AP Wirephoto)

1953 Tax Topics

No. 10

(Income Tax Form 1040A) This is the simplest return of the three types provided in an effort to fit the income tax returns to the differing needs of the more than 55 million persons who must file them.

If you file this form you do not need to figure your own tax. From your answers to the questions, the District Director of Internal Revenue will figure your tax for you, and send you a bill or a refund. You may use the Employee's Optional Income Tax Return (Form 1040A) if your total income was less than \$5,000 and consisted entirely of wages reported on Withholding Statements (Form W-2), or of such wages and not more than \$100 total of other wages, dividends, and interest, all of which must be entered on the tax return. You may not use Form 1040A but must file your return on Form 1040 if (1) you had any income from other sources, such as annuities, rents, royalties, a business or profession, farming, transactions in securities or other property, partnerships, estates, and trusts, or (2) you claim the status of unmarried head of a household, or (3) you wish to deduct travel or reimbursed expenses from your wages.

Langer Holds Secret Meeting

WASHINGTON (AP) — Sen. Langer (R-ND) said Friday his displeasure with the administration's handling of patronage in his state had no connection with the Senate Judiciary Committee's month-old consideration of Chief Justice Earl Warren's nomination.

Warren, former Republican governor of California, was nominated by President Eisenhower on Jan. 11 for the nation's highest judicial office. He already is serving on the Supreme Court under a recess appointment made last fall while Congress was in adjournment.

No senator has announced intention of voting against Warren's confirmation. It is taken for granted the Senate will act favorably after preliminaries are completed. Langer called a closed meeting of a Judiciary subcommittee late Friday for further consideration of Warren's nomination. Langer is chairman of the subcommittee as well as the full committee.

He said he didn't know whether the subcommittee would act on the appointment, but he told newsmen that "I want to get rid of it as quickly as possible."

Wind and Rain In Many Areas

By THE ASSOCIATED PRESS. Wet and windy weather was the outlook for most of the midcontinent and northwestern areas Friday. Mild and fair weather prevailed in the eastern quarter of the country.

A rain storm with strong winds swept the Southern Plains States and Southeastern Rocky Mountain region. Winds with gusts of more than 50 miles an hour swept the storm sections. Brisk winds also were reported over most of the Midwest with showers in prospect by Friday night.

Indochina Reds Shoot up Mart

HANOI, Indochina (AP)—Vietminh commando troops, disguised as peasants, have entered a busy market place in a Catholic village in the southeastern part of the Red River delta, and killed at least 20 of the Vietnamese residents.

Firing rifles and pistols and hurling grenades into defenseless crowds, the Communist-led Vietminh forced nearly 2,000 Vietnamese to flee screaming from the village to seek hiding places in the adjoining rice fields.

The commandos attacked between 9 a. m. and noon Feb. 12. Five hundred persons are reported missing and many of them are feared to be dead.

But spot investigators said Thursday there was no way of telling how many of these would eventually return to the village of Than Thung. This village is five miles southeast of Thai Binh, which in turn is 55 miles southeast of Hanoi.

Drizzle or rain showers reported in Texas and the Gulf while snow was general over the Eastern Rockies. Fairly heavy rain fell along the coasts of Oregon and Washington.

Coldest spot early Friday was West Yellowstone, Wyo., with a reading of 4 above. At the same time it was 72 in Miami, Fla.

'LAST MAN OUT'

Operation Big Switch came to a belated end at Travis Air Force Base, Fairfield, Calif., when the "last man out," Cpl. Donald Wakehouse of Woodbine, Ia., arrived aboard a C-97 hospital plane. Here, Wakehouse tells the press he is "awfully anxious" to get home to his wife, as Flight Nurse Peggy L. Berkheimer looks on. (UP Telephoto)

Deetz Sues Wm. Wiedel

PORTLAND (AP) — A slander suit for \$10,500 damages from the state milk marketing administrator was filed here Thursday by Elmer Deetz, the Canby dairyman who is fighting state milk control.

The circuit court suit accused the administrator, William W. Wiedel, of making untrue and damaging statements against Deetz in a speech before a dairy group at Albany, Feb. 9.

The complaint quoted Wiedel as saying Deetz could not get a license to sell milk until he "cleans up his establishment," and that Deetz is "being used by powerful interests in the battle to abolish Oregon's milk control laws."

Deetz, who has been selling milk in gallon jugs at his farm to cash-and-carry customers, contends that state control of milk marketing is illegal.

Col. Switzer to Be On Campus Monday

Col. Byron R. Switzer, AFROTC liaison officer for the northwestern states, will arrive on the Willamette University campus Monday, it was disclosed today by Lt. Col. Norman W. Todd, university AFROTC commandant.

With headquarters at Air University in Montgomery, Ala., Colonel Switzer is currently making

a tour of Air Force college units in Oregon and Washington.

A luncheon meeting with Colonel Switzer will be held at Baxter Hall Monday noon. In attendance will be President G. Herbert Smith, Dr. Robert Fenix, Dean Mark Hatfield, Ted Ogdahl, Dr. Howard Runkel, Lt. Col. Norman Todd, Maj. Gilbert Charters, Maj. John Thompson, Capt. Theodore Velde and Capt. William Kirkman.

A test pilot in research and development in 1917-18, Col. Switzer was chairman of the Joint Intelligence Collection Agency in North Africa, Sicily and Italy during World War II. Following the war he was attached to the embassy in Rome.

Speech Classes Open To Parochial Schools

PORTLAND (AP) — Portland public schools must open their special speech therapy classes to parochial school students, a circuit judge decided here Thursday.

The fact that students attend a parochial school is "not an indulgence on the part of government, but rather fruitful protection of the free intellectual development of its society. The obligation of the state to the private school child is in no sense abdicated," Judge Alfred P. Dobson said.

Attorneys for a Catholic school student brought the case to court after the public school board had ruled that students from parochial schools could not be admitted to the special classes.

The banquet is under the direction of the auxiliary of Veterans of Foreign Wars No. 661 and any profit made is used by the auxiliary for rehabilitation

Limbless Trees Seen in Future

REDDING, Calif. (AP) — A forest research official predicts that within 50 years trees will be grown in a third of the time it takes now, and that they'll be tall, straight and limbless.

Leslie J. Carr of Sacramento, Calif., president of the Forest Products Research Society, predicted woodsmen will carry hypodermic needles instead of axes, helping the trees along.

Speaking before the Sierra-Cascade Logging Conference, Carr predicted trees, stained to decorator colors while still standing, would be lifted—roots and all—by giant machines and transported to mills where every splinter would be put to use.

Atomic factories would use powerful beams of radiation instead of saws to cut the lumber.

"It may sound fantastic," Carr told some 1,000 lumbermen of Northern California and Southern Oregon, "but it is based on developments already in use and on the thinking of some of the best men in the industry who are looking far into the future."

West Germany Says Reds Showed Intentions in Parley

BONN, Germany (AP) — The West German government said Friday the Soviet Union showed in the Berlin conference that it intends to become "the sole dominating power on the European continent."

In a statement bitterly criticizing the proposals advanced in Berlin by Soviet Foreign Minister V. M. Molotov for settling the German question, the government said:

"The (West German) federal government, together with the German people in the federal republic and in the East Zone, is a unit in deploring the result of the Berlin big four conference.

Washington State Issue

WASHINGTON (AP) — A Power Commission examiner plans to rule early next week on whether Washington State's case will be thrown out of the Hells Canyon hearing.

Examiner William J. Costello expects to rule Tuesday "or very soon thereafter" on a motion to strike the testimony of Holland Houston, Washington's lone witness at the hearing on Idaho Power Co.'s applications to build three dams in the Snake River between Idaho and Oregon.

Costello gave this notice late Thursday when he ordered a four-day recess in the hearing. Mrs. Evelyn Cooper, attorney for groups favoring construction of the federal Hells Canyon Dam near one of Idaho Power's proposed sites, moved last December to strike Houston's testimony on grounds it failed to support Washington's intervention petition and he did not qualify as an expert witness.

Houston, power adviser to the Washington governor, testified against the proposed federal dam.

Otten, Well Known Horticulturist, Dies

SEASIDE (UP)—George Otten, internationally known horticulturist, died here yesterday.

Otten was born at Bremen, Germany, and came to this country in 1884. He was credited with revolutionizing horticulture in olive groves of California. He also was an authority on begonias.

At one time he was in charge of the royal botanical gardens of King Ludwig in Germany.
