Mixed Weather Across Nation

By THE ASSOCIATED PRESS

There was a variety of weather across the nation Tuesday—but no severe cold or heavy snow.

But a storm in Southeastern Minnesota produced light snow along the Canadian border, as well as rain in the Central Mississippi Valley.

Other wet spots were along the coastal areas in Northwestern Washington and off Cape Cod, Mass.

New dust storms were reported in the southwest, centering in the Texas-Oklahoma Panhandle and extending northward to Nebraska and westward into eastern sections of Colorado and New Mexico. Visibility in some areas was reduced to one quarter mile.

Skies were clear in most other sections of the country.

The Northern Great Lakes region and the Central Rockies were the only below freezing areas early Tuesday. Mild weather continued over most of the southern half of the country. It was 87 in Los Angeles Monday, a record for the date.
