

Good Feeding Produces Milk

Good winter feeding and management practices are reflected in the Marion County Dairy Herd Improvement association records for January. County Extension Agent Ben A. Newell reports. The herds on test representing 1997 cows averaged 652 pounds of milk per cow.

The top Jersey cow, Ramona, is owned by Mr. and Mrs. Felix Müller of Jefferson. She produced 1810 pounds of milk and 83.3 pounds of butterfat.
