Reader's Digest Reports: ONLY NEW COLGATE DENTAL CREAM with Miracle Anti-Enzyme Ingredient GARDOL* HAS THE CLINICAL PROOF!

(Proof that Brings New Hope to Millions for LIFETIME PROTECTION AGAINST TOOTH DECAY)

5 QUICK FACTS FROM THE READER'S DIGEST ARTICLE
"What About Anti-Enzyme Toothpastes?" December, 1953

- 1. Reader's Digest** says—The most effective anti-enzyme toothpaste ingredient tested was developed in the Colgate-Palmolive Company laboratories.
(It's Colgate's miracle ingredient Gardol (Sodium N-Lauroyl Sarcosinate)—found in no other leading toothpaste!)
- 2. Reader's Digest** says—One of the foremost dental authorities in the world proved that this ingredient binds itself effectively to the teeth—holds acid formation below the decay level in 95 per cent of cases tested.
(Unlike ordinary toothpaste ingredients, effective only for minutes, this protection won't rinse off—won't wear off—all day or all night!)
- 3. Reader's Digest** says—Even 12 hours after brushing, this new Colgate anti-enzyme discovery continues to guard against the enzymes that cause tooth decay.
(Thus, just daily morning and night brushings guard against decay-causing enzymes every minute of the day and night!)
- 4. Reader's Digest** says—In clinical tests, supervised by leading dental authorities—for a full year—people who used ordinary toothpastes averaged almost two and a half times more new cavities than those who used New Colgate Dental Cream with Gardol (Sodium N-Lauroyl Sarcosinate). In fact, of the group using New Colgate's, 4 out of 5 developed no new cavities at all.
(A group of distinguished dentists examined this evidence and agreed—New Colgate Dental Cream with Gardol gives the surest protection against tooth decay ever offered by any toothpaste!)
- 5. Reader's Digest** says—New Colgate Dental Cream is the only toothpaste with clinical proof of its effectiveness in actually reducing the formation of new cavities.

NOW! NEW COLGATE DENTAL CREAM CONTAINS GARDOL (SODIUM N-LAUROYL SARCOINATE)
