**Y-Teen Notes**

By ANNE HELTZEL  
Tri-Y Member

"Will the meeting please come to order?" So goes the summons on the club days of the various Y-Teens, the Junior high group. Y-Teen, is the national term for both the junior high and high school clubs, but in Salem only the junior high girls are called Y-Teens. There are 12 organizations in our three junior high schools.

A girl joins by signing up at the first of the school year at her school or by coming to meet-

ings. Dues from the members and various fines for violations go to the club treasuries.

Club meeting time is occupied with speakers and movies on subjects dear to a junior high girl's heart. Many of the service projects are worked on at meetings. Plans for forthcoming social events are also formulated.

Mixed dances, ski trips, go-to-church Sundays, tours of local industries and summer parties are a few of Y-Teens' social activities. A favorite yearly project is making holiday trays for the patients of Salem's hospitals. The proceeds from the sales of hot cross buns each Easter season go toward camp at Silver Creek. Tiling the gym floor of the new YWCA is a Tri-Y and Y-Teens project, and doughnuts and candy have been sold for this cause.

The meeting is closed with a prayer, and each girl has had another chance to try "To find and give the best."

**Steam Plants Must Be Linked With Hydro Plants**

WASHINGTON (AP)—An engineer said Thursday many power transmission lines will have to be junked by 1960 unless steam plants are coordinated with the hydro-electric system in the Pacific Northwest.

Holland Houston, power advisor to the Washington State governor, said this at a Power Commission hearing on Idaho Power Co. applications to build three dams in the Hells Canyon of the Snake River, where a federal dam has been proposed.

If the all-hydro system is continued in the Pacific Northwest, Houston testified, markets east of the Cascade Mountains will absorb the water power and those in the west will turn to steam with the result that transmission lines over the mountains will be abandoned.

R. P. Parry, Idaho Power Co. attorney, cross-examined Houston on operation details of the combined hydro-steam system which he says should replace cyclical (hard-to-fill) reservoirs like the proposed federal Hells Canyon reservoir.

Parry asked Houston to comment on an Army engineering report on proposed dams in the Clearwater and Middle Snake Rivers, including Bruce's Eddy, Penny Cliffs and Nez Perce.

John C. Mason, Power Commission lawyer, objected on grounds the Army has not made the report an official document.

Houston said an Army engineer told him contents of the report could be revealed at the Hells Canyon hearings.

Mrs. Evelyn Cooper, attorney for

John Kloft co-chairmen in charge were assisted with a hostess committee, Mrs. Alfred Huber, Mrs. John Schmitz, Mrs. Clarence Ebner, Mrs. Carl Feseler, Mrs. Paul Wachter, Mrs. E. A. Hammer, Mrs. Al Bentz, Mrs. Patrick Ebner, Mrs. Leonard Fisher and Mrs. William Beyer.

A late supper was served in the school dining hall.

**3 Recruiters Talk At Cascade High**

Three Salem recruiters for the Armed Forces were at the Cascade Union high school, near Turner Thursday for "Career Day" there for the students.

The Salem recruiters were Chief T. E. Peterson, U. S. Navy; SMC John R. Gilley, Army and Air Force; and Staff Sgt. Robert D. Wilson, Marine Corps.

Coming from Portland to talk to the girls were representatives of the women's branches of the Armed Forces. They were Sgt. Melba Magnuson of the WAC; A 2-c Ira Hutcherson of the WAF; Elizabeth A. Stephenson, H 1-1, Wave, and Tech. Sgt. Vera LeValley, Marine Corps.

Fred Glover of the Cleveland Barons holds the American Hockey League record of goals scored in consecutive games. In 1950-51, Glover scored in 11 games in a row.
