—GAS

If you suffer with gas, you have many uncomfortable moments. After meals you burp. Your abdomen feels distended and full as a tick. You wish you had not eaten. Your food "repeats." You take anti-acid tablets. You try many remedies. Nothing helps. You reach the point where even water seems to make gas. Your constant question is, "What causes all this gas?" Many factors may be involved such as:

1. Overeating
2. Poor food combinations
3. Unbalanced diets with too many fermenting foods
4. Mucus in the stomach and bowels
5. Worry and nervousness
6. Eating when not hungry or when tired
7. Lack of organic minerals, vitamins and enzymes
8. Hurried meals

If you are a gas sufferer, it would be well worth your while to discover what Our Natural Method of treatment can do for you.

Life is swell when you feel well.

Hopes that the British were ready to go along on such a plan had begun to wane over the past weekend, however, partly as a result of French political developments and partly because of apparent concessions made by the Reds to keep the Geneva talks going.

The French development which dimmed the united front outlook was the installation of a new French government headed by Pierre Mendes-France who promised a settlement in Indochina—or his resignation—within a month.

**Churchill Due Friday**  
Churchill and Foreign Secretary Eden are due in Friday. Their talks with Eisenhower and Secretary of State Dulles will be informal and aides indicate, as secret as possible.

The Indochina crisis is the No. 1 topic. Others include the organization of a European Defense Community and atomic energy problems.

U. S. officials said that the American government is still urgently interested getting a united front of Allied European and Asian nations set up to halt Communist expansion in the Indochina area. They think a conference would be useful to that end.

# Flash Floods

The western Dakotas, eastern Wyoming and northwest Nebraska were a bit cooler, but to the west and south it was even hotter. Sunday readings of 110 were common in the desert Southwest, and Yuma Ariz., had 115.

Most of northern Iowa was polka-dotted with small lakes created by torrential rains. Crop experts said damage would run into millions. Highway and rail traffic were interrupted at many points.

The north-central Iowa city of Fort Dodge was among the new flood emergency points. Sioux City, in western Iowa, and Mason City, near the northern border, rode out flood crests and now face new crises.

# Governors' Review Goes On in Spite of Rain

By MARGARET MAGEE

Jupiter is in command at Fort Lewis Saturday when Oregon and Washington National Guard troops of the 41st division presented their annual review.

However, the show went on and the men stood in the down-pour of rain during the inspection then marched past in review as the rain continued.

Neither did the rain stop the folks from home from making the trip to Fort Lewis for the review and they filled the stands for the annual event. Canvas tops had been placed over the stands, but they could not shut out the rain that blew in from the sides and under the covering.

Washington's Lt. Governor Emmett T. Anderson and that state's adjutant general, Maj. Gen. Lilburn Stevens, missed the inspection because of the rain, but it was carried on by Oregon's Gov. Paul L. Patterson, Maj. Gen. Thomas E. Rilea, Oregon's adjutant general; and Maj. Gen. Robert Sink, commander of Fort Lewis and the 44th division, who represented the Sixth Army commander.

Both Anderson and Stevens had been in the east part of the state and had planned to take a plane into Fort Lewis. Bad weather, however changed their plans and the trip had to be made by car. They arrived before the review had ended.

The bad weather also changed the plans of a group from the Willamette valley area who had gone to McChord in the morning by plane to attend the review. The plane, piloted by Col. Gordon Doolittle, with Lt. Col. Waldo Timm as co-pilot and Ken Power as the crew chief, came into Salem Saturday morning after a Portland stop where it picked up Portland and St. Helens newspaper people, then went into Corvallis.

Plans were to return the group by plane, but as the weather continued to get worse Saturday afternoon the flight was cancelled and a National Guard bus brought them back home.

No walkouts were reported in Josephine County of Southern Oregon, where the AFL holds jurisdiction. One of the larger firms, the Bate Lumber Co. at Merlin, five miles north of Grants Pass, granted a provisional 2 1/2-cent increase, pending final settlement in area-wide negotiations.

Davis said that negotiations are continuing with about 70 fir belt operators of Oregon and Washington. Some of these have made "substantial offers," he said. He added that if any pattern develops that looks like a fair settlement, it will be considered.

There is no general wage rate covering the industry, but negotiators place the average figure at about \$1.87 1/2 an hour.

Davis said there were about 35,000 AFL workers out in Oregon and Washington and another 28,000 out at California and Nevada. Dacey said about 40,000 CIO Woodworkers are out in the area.

The AFL did not call out its members in Montana and Idaho. The CIO in the pine belt has left strikes up to locals and some have been shut down.

In New York, Guatemala's delegate to the united nations, Eduardo Castillo-Arriola, denied a series of rumors:

1. That fighting has broken out in Guatemala City.
2. That the chief of Guatemala's army, Col. Carlos Diaz, has taken refuge in a foreign embassy.
3. That a new invasion had begun from El Salvador.
4. That the Roman Catholic archbishop had fled.

Castillo-Arriola, speaking on the basis of a telephone call from Foreign Minister Guillermo Toriello, said the only military action was taking place at Gualan, a town of 3,000 on the Metajuga River in East Guatemala near the Honduran frontier.

**Martial Law Declared**  
President Jacobo Arbenz Guzman of Guatemala proclaimed martial law throughout his invaded country today as his Communist-backed government mobilized for a showdown battle with anti-Red rebels.

Insurgent leaders claimed their forces were pushing ahead in a three-pronged drive aimed at key rail and road communications in the southern part of the country. The martial law decree was announced late last night after a government appeal for all private cars to be turned in for use in moving troops. Reports from Guatemala said the decisive phase of the battle for that neighboring Central American nation may come within 48 hours.

Associated Press Correspondent Jack Rutledge, in Guatemala City quoted Guatemalan army officers as saying no field action had yet been fought. They added, however, that a battle could not be delayed much longer.
