

### Rites Set for Three Victims

ALBANY — Funeral services will be held here Tuesday and Wednesday for two Albany youths who, along with a former Lebanon girl were killed early Sunday in an automobile crash about five miles southeast of Salem, where two other Albany youths are hospitalized for injuries they suffered in the mishap.

Services will be held Tuesday for Manley James Mundorf, 19, son of Mrs. Robert Ross, Albany, and Wednesday for Bryant William Foster, 19, son of Mrs. Ross Marlow also of Albany. Killed also was Charlotte Lennon, 18, daughter of Mrs. Christine Lennon, who had moved to Salem November 3.

Injured less severely was Morris Drummond, son of Mrs. William Bowles of Albany and who is at Salem General hospital. Severely injured was Wayne Eugene Jennings, whose aunt, Mrs. Melvin Transue, lives here and whose mother is in California.

Services for Manley James Mundorf will be held at the Fort Miller-Fredericksen Funeral home Tuesday at 2 p.m. with burial at Willamette Memorial park.

He was born May 3, 1935, at Cloverdale, Ore., and moved from there with his parents to Sweet Home, where he attended grade school. The family came to Albany five years ago and he was graduated from Albany high school in 1953. He had been employed at the Pletsweet plant here and was soon to marry Stella Bailey of Albany. Surviving besides the mother are a sister, Marilyn Mundorf, and a brother, Thomas Mundorf, Albany; his father, Guy Mundorf, Lebanon; grandparents, Walter Wulf and Mrs. Fred Coleman, both of Nebraska.

Services will be held at the Fisher Funeral home at 2 p.m., Wednesday for Bryant William Foster, with cremation to take place at Salem. Foster was born January 19, 1935, at Los Angeles, Cal., and had lived most of his life at Long Beach until he came here last year. Surviving are his mother and stepfather.

Services for Miss Lennon will be at 3 o'clock Wednesday afternoon at the Hennessey, Goetsch & McGee Chapel in Portland with interment in Lincoln Memorial Park, Portland. She formerly lived at Lebanon, but moved to Salem a few weeks ago. Besides her mother she is survived by a brother, Charles E. Lennon and a sister, Rosemark Barber, both of Salem.

### Gifts Received by Woodburn Library

WOODBURN — Mrs. Wayne Byers has presented the Woodburn library with a "page turner" as a memorial to her late husband, Wayne Byers. This is an electrical device for the turning of pages of books and magazines for those who are handicapped and was used by Mr. Byers. The memorial is to be kept at the library to be loaned to those in the community who might have need for it. Mrs. Byers has agreed to demonstrate its use to those who need the instruction.

T. F. Stewart of Woodburn, Route 1, has presented the library the painting "Forest Glade" by Alice Sargent, local artist. The oil painting, now hanging in the library, depicts a scene in the woods with great streams of hazy light.

The Christmas tree and mantel decorations at the library were furnished by the Woodburn Woman's club.

### GROWING CITY

OSAKA (AP)—This city, second in size only to Tokyo, now has a population of 4,509,298, an increase of 650,000 since the 1950 census, a recent survey shows.

### Quake Leaves Deep Cut In Desolate, Arid Valley

DIXIE VALLEY, Nev. (AP)—In this desolate, arid valley, where water has been found only in minute quantities, a warm stream now spurts from the mountain fastness and races along an awesome gash in the valley floor.

Deep scars slash the valley floor as if an angry giant had attempted to pull the mountains from their roots.

Scientists say that either the snow capped peaks have been shoved upward a few feet or the valley itself has dropped.

These are results of the violent earthquake born in this isolated spot last Thursday and felt in five Western states.

"The quake was without doubt

### Censor Holds up Versailles Film

NEW YORK (UP)—A French historical-spectacular motion picture, "Versailles," produced with the cooperation of the French Ministry of National Education, has been impounded by U.S. Customs for being just a shade too educational about the anatomy of an 18th century sculptor's model, it was disclosed today.

The film's importer said he had telegraphed Secretary of State John Foster Dulles and Treasury charge of customs, urging them to admit the film to avoid an "international incident."

The movie, said to be the most expensive ever produced in Europe starring some of the biggest European movie stars and a couple of Americans, Claudette Colbert and Orson Welles, covers 300 years of French history and pays 20 per cent of its profits to the French government toward restoration of the Palace of Versailles, according to Jean Goldwurm, president of Times Film Corp.

A customs official said Goldwurm could undoubtedly have his film by agreeing to cut one brief scene in which a masked woman is disrobed to the waist at "some king's masquerade ball" to see if she can be matched to a piece of statuary.

### Portland Holiday High Sets Record

PORTLAND (AP)—The Portland post office reported Monday that the volume of Christmas mail is at a record high.

There were 1,149,189 pieces of outgoing parcel post compared with 1,092,854 in the same period last year. Incoming parcel post was reported at 322,570 compared with 237,582 in 1953.

There were 14,849,434 incoming letters compared with 13,277,517 last year. Outgoing mail was slightly higher — 17,939,094 compared with 18,348,829 in the same period last year.

The postoffice staff of 1,700 has been doubled and work space has been doubled, too, with warehouse space taken over for working mail. Railroads have added 125 men and put on four special mail trains daily—incoming from the south and from the east and outbound south and east. Last Thursday's southbound mail train was the biggest yet—23 cars.

### JAP EMIGRANTS SAIL FOR S. A.

KOBE, Japan (AP)—The ship Brazil Maru sailed Tuesday with 764 Japanese emigrants to South America.

Ninety-eight families, consisting of 640 persons, will make new homes in Brazil and Paraguay. The remaining 128 emigrants will join relatives already in South America.

### Ellsworth to Fight for Roads

ROSEBURG (AP)—Rep. Harris Ellsworth (R-Ore) said Monday he will do all he can in the next session of Congress to improve the lumber and logging industry in the Pacific Northwest.

Ellsworth, who was to leave here Tuesday night for Portland and the East, said he would fight for additional funds for access roads into timberlands.

On Wednesday he plans to confer with Army Engineers on their program for hydro-electric development of the region. He will leave Portland Wednesday night for Cleveland where he will spend the holidays with relatives. He plans to arrive in Washington, D. C., Jan. 2.

Referring to a request to the President by A. W. Lafferty, attorney representing Clackamas County, for early distribution of O & C lands funds, Ellsworth said: "If Lafferty really wants to see the money go to the counties, all he has to do is withdraw his suit." The suit attacks a bill of which Ellsworth and Sen. Guy Cordon were authors.

### Site for Sports Narrows to Four

PORTLAND (AP)—Likely sites for Portland's proposed eight million dollar sports-exposition center were narrowed to four Monday by a special city committee.

The committee directed Stanford Research Institute, which investigated a number of sites earlier, to complete detailed studies of the four sites: The present civic auditorium and 12 blocks of property adjacent to it; 70 acres along the west bank of the Willamette River north of Ross Island Bridge; the 99 acres which once were East Vanport; a 20-block area on the east bank of the Willamette between the Broadway and Steel bridges.

The auditorium site would not permit inclusion of the Pacific-International Livestock Exposition but the others would.

### Springfield Census Shows 12,422 People

SPRINGFIELD (AP)—An unofficial census of this Lane County city, just completed, lists the population at 12,422, a gain of 1,615 over the 1950 federal census figure.

The census was taken by federal enumerators at the request of the city in an effort to increase the share of state gasoline tax and liquor receipts.

one of the most important ever recorded in the United States," Prof. David Slemmons, University of Nevada earthquake expert said. By this, he said, he means in terms of ground displacement.

Slemmons is among the scientists, who have converged on Dixie Valley to study the effects of the quake. He flew over the area—some 50 miles east of Fallon—mapping the gaping scars caused by newly-opened faults.

One slash extends for 28 miles. Slemmons found part of a new fault where one side is 20 feet lower than on the other side. He called this possibly one of the greatest vertical shiftings of earth ever recorded in the United States.

The area is sparsely settled, and for all its fury the quake brought no casualties.

By comparison, the San Francisco quake of 1906 caused only a three-foot vertical displacement—yet killed some 700 people.

The valley is about twice the size of Manhattan Island. Some ranchers graze cattle here, but there are no settlements for miles. About six families live in the valley during the summer, but at the time of the quake only a few ranchers were in the area. They were not injured.

"Had the quake occurred in a populated area," Slemmons said, "I hesitate to think of the death and destruction it would have caused."

### Cold in East, Mild in West

By THE ASSOCIATED PRESS. It was cold over most of the eastern half of the nation again Tuesday but the western sections had comparatively mild weather.

Temperatures dipped to the 20s as far south as Northern Florida while in parts of the Midwest it was below zero. One of the coldest spots was Pellston, Mich., with a low of -10. It was 5 below at Flint, Mich.

The mercury skidded to 29 above at Daytona Beach, Fla., while Birmingham, Ala., shivered in a low of 26 above.

In contrast to the cold in the eastern half, temperatures were in the 30s and 40s over the West. The only precipitation was in Western Washington which reported light showers. It was a warm 84 in Thermal, Calif., Monday; 82 in San Diego and 80 in Los Angeles.

### List Ten Worst Dressed Persons

NEW YORK (UP)—Actor Robert Newton, who claims he's tired of "dressing up and showing off," has listed his choices for the "ten worst dressed persons on earth."

They include: Former President Harry Truman, actor Charles Laughton, millionaire Howard Hughes, playwright George S. Kaufman, author Ernest Hemingway, Nobel Prize winner Albert Schweitzer, actresses Tallulah Bankhead, Greta Garbo and Bea Lillie, and party-giver Elsa Maxwell.

No harm meant, says Newton, adding: "An old suit is an old friend. There's too much emphasis on dressing up and showing off today."
