Testimony to Start Today

NEWPORT, Ore. (UP) — Testimony was scheduled to begin Thursday in the second trial of Richard Thomson, accused of trying to kill his business partner, James Meuler, 31, in 1953.

Thomson was convicted in the first trial, but a new trial was ordered by the State Supreme Court on the ground improper evidence was introduced.

Selection of a jury was completed Wednesday, and the jury at once went to the scene where Meuler went over a bluff in an automobile.

Thomson is accused of hitting Meuler over the head with a piece of pipe, and then rolling him off the bluff in the car. The car plunged into the surf far below, but Meuler bounced out part way down, and recovered to testify against Thomson in the previous trial.

Defense attorneys have indicated they may plead temporary insanity for Thomson. This led Dist. Atty. William Hollen to request an examination of Thomson by Dr. Rogers Smith of Portland Wednesday. The defense agreed. After the examination, there was no announcement of Smith's opinion.

Rainfall Hits Some Sections

By THE ASSOCIATED PRESS
Thunderstorms continued in parts of the mid-continent and rain fell in sections of the East and Far West but other parts of the country had fair weather Thursday.

The dust storms that swept across Southwest areas appeared to have ended as winds diminished. A narrow belt of heavy thunderstorms extended from extreme Southern Indiana southwestward across Western Tennessee and to Eastern Oklahoma. More than two inches of rain fell in Memphis and more than one inch in parts of Arkansas and Kentucky. Hail and heavy rain hit Little Rock, Ark.

More rain fell in coastal sections of Northern California and Oregon with scattered light showers extending inland to Idaho and extreme Western Montana. It was mild weather in the Southeast with temperatures in the 60s and tapering off to the 40s over most of the North Atlantic states. They also were in the 40s in the Great Lakes region westward across the northern tier of states to the Pacific. Near or below freezing readings were reported to local areas in Northern Maine, the higher Rocky Mountain region and northwestern North Dakota.

Urges Burial For Old Oregon

WASHINGTON (UP) — Rep. Walter Norblad (R-Ore.) today urged that the battleship Oregon, veteran of the Spanish-American war, be given a proper military burial "with all possible honors."

The ship, stripped of all fittings, was used as a breakwater at Guam during the war and is still at the Pacific island. Norblad said the cost of towing the hull to Portland had been explored and found prohibitive, and its value for scrap was "questionable."

The Oregon Republican is a letter to Rear Admiral W. D. Leggett, Chief of the Navy's Bureau of Ships in Washington, urged that the Admiral take appropriate action and arrange for the Oregon's burial, "with appropriate patriotic ceremonies."
