18 Million Feet Snags to Be Sold

Sale of approximately 18 million board feet of snags in the Tillamook burn will be made by oral bid on November 18, State Forester Dwight L. Phipps announced Friday.

The snags are Douglas fir and western red cedar located on 1680 acres of land in the Wilson river area. Phipps said that an access road enters the area. He added that the minimum price that will be considered is $281,250.

The salvage logging is part of a program which has already recovered nearly six billion feet of dead timber in the burn area. When the logging has been completed, the state forestry department plans to plant and fireproof the area.

The dead timber is located on rugged, hilly terrain found in the Tillamook county portion of the burn, Phipps said.
