Wall Street
 NEW YORK — The ever-popular aircrafts stood out strongly Wednesday in a higher stock market.
 Some gains in the favored sections went to around 3 points, and there were many gains of 1 to 2 points. Losses sometimes got to a point.
 The rise brought out additional buying and the total trading came to an estimated 2,500,000 shares for the day. That compares with 2,290,000 shares traded Tuesday when the market was irregularly lower.
 Mounting defense spending and bigger plans for the future is the impelling force back of the aircrafts.
