

### Chessman Lists Errors Found In Transcript

SAN FRANCISCO (UP)—Convict-author Caryl Chessman has pointed out a number of alleged "errors" in the transcription of his 1954 trial, which he claims were responsible for his death sentence.

However, the 34-year-old convict said he never raised the question of the errors and deletions before because he could not "substantiate the charges" until 1954.

Chessman testified at a hearing before Federal Judge Louis E. Goodman on his petition for a writ of habeas corpus. He admitted under cross-examination, that he knew of what he called "erroneous statements" at the time he asked for a new trial.

(In 1954 the U. S. Court of Appeals denied Chessman's petition because the convict-author has "husbanded these contentions through ten habeas corpus proceedings" and had failed to raise the issue at the appropriate time.)

At the present hearing, Chessman has charged that the errors in the transcript were the result of deliberate fraud by Los Angeles Judge Charles W. Fricke, prosecutor J. Miller Leavy, and Stanley Fraser, who was hired to transcribe the notes of court reporter Ernest Perry who died shortly after the trial.

Chessman charged there was no mention in the record of Fricke's statement to the jurors that "if they found bodily harm, they should return the death penalty in this particular case."

He was found guilty on 17 counts of robbery, rape, kidnap and sex perversion and sentenced to die.

Chessman said he also testified how police offered to charge him only with robbery if he would confess.

"My words are not in the transcript," he swore yesterday. "They have been materially abridged. The precise details are not as I gave them."

### Patterson Calls for Support Of Administration Principles

BOISE, Ida. (UP)—Gov. Paul Patterson of Oregon called on fellow Republicans last night to support the principles of President Eisenhower and his administration regardless of whether or not the president is a candidate for reelection next fall.

The Oregon governor spoke before the Boise "Salute to Eisenhower" dinner, one of 70 held simultaneously in principal cities throughout the nation as a testimonial to President Eisenhower's leadership and the third anniversary of his inauguration as president.

"I call on Republicans to accept the challenge a military man might have made to his troops, that if your objective is right, drive on to victory even though your commander-in-chief may fall along the way," Gov. Patterson said.

"Whatever the President's decision may be, I ask you to devote your energies in the coming campaign to making sure that the things for which he has stood will be achieved for the benefit of all the people."

On the credit side of the Eisenhower administration, he listed more than 10 billion dollars pared from the national budget; removal of price controls; streamlining while strengthening national defense; halting of inflation and the transition for the first time in history from war to peace without a depression.

He said America faces the most prosperous era in the history of the country, observing:

"The outlook for the year 1956 is the brightest in the peacetime history of man."

### NY Fuel Truck Drivers Go Back to Jobs

NEW YORK (UP)—Fuel truck drivers were back at work today after a five-day strike that Mayor Robert Wagner said had threatened to become a midwinter "catastrophe."

The Oregon governor spoke before the Boise "Salute to Eisenhower" dinner, one of 70 held simultaneously in principal cities throughout the nation as a testimonial to President Eisenhower's leadership and the third anniversary of his inauguration as president.

"I call on Republicans to accept the challenge a military man might have made to his troops, that if your objective is right, drive on to victory even though your commander-in-chief may fall along the way," Gov. Patterson said.

"Whatever the President's decision may be, I ask you to devote your energies in the coming campaign to making sure that the things for which he has stood will be achieved for the benefit of all the people."

On the credit side of the Eisenhower administration, he listed more than 10 billion dollars pared from the national budget; removal of price controls; streamlining while strengthening national defense; halting of inflation and the transition for the first time in history from war to peace without a depression.

He said America faces the most prosperous era in the history of the country, observing:

"The outlook for the year 1956 is the brightest in the peacetime history of man."

### Gusts Clearing Patch of Ice On Antarctic

By SAUL PETT

ABOARD USS EDISTO, MC-MURDO SOUND, Antarctica (UP)—Mother nature, antarctic branch, has come to the aid of Operation Deepfreeze with a whoop and a holler.

In a 20-hour period, south winds with gusts up to 46 m.p.h. cleared a 23 by 23 mile area of McMurdo Sound of ice. In all about 700 square miles of ice have been blown out to sea.

And this was no minor accomplishment. The ice averaged three to five feet and last Wednesday was strong enough to support planes weighing 32 tons. The planes flew to New Zealand Wednesday and where they were landing and taking off here now is clear blue water. The temperature yesterday was 28 degrees above zero.

Until now the thickness of the ice was a mixed blessing. It was strong enough to hold planes but too strong for icebreakers to carve a path wide enough for cargo ships. As a result cargo had to be unloaded from the bigger ships and ferried by icebreaker up through the narrow channel—a long slow process.

In five days this ferrying method permitted less than 40 per cent of the Wyandott's cargo to be unloaded. Now the process will be speeded up because the cargo ships will be able to steam 20 miles closer to Hut Point.

Indian hotel owners want the government to stop Hilton Hotels International from operating a six million dollar six-story hotel which the New India Assurance Ltd. has asked the government for permission to build.

The proposed Hilton Hotel would be the largest in the capital with a capacity of 800 to 900 guests.

The hotel owners claim there is not room for another hotel in New Delhi particularly since two new hotels have already been approved for construction.

### Hilton Hotel Draws Protest

NEW DELHI (UP)—Indian businessmen today urged the government to forbid an American-owned hotel to be built in New Delhi.

Indian hotel owners want the government to stop Hilton Hotels International from operating a six million dollar six-story hotel which the New India Assurance Ltd. has asked the government for permission to build.

The proposed Hilton Hotel would be the largest in the capital with a capacity of 800 to 900 guests.

The hotel owners claim there is not room for another hotel in New Delhi particularly since two new hotels have already been approved for construction.

### Girl Admits Killing Man

LAS VEGAS, N. M. (UP)—A 16-year-old girl admitted the slaying here Thursday night of an elderly bachelor whom her mother had fought just a few hours earlier, police said today.

Sheriff Manuel Ortiz said the victim, Alfredo Gallegos, 79, was beaten with a piece of wood and stabbed with a butcher knife. Another officer said there were at least 100 stab wounds on the body.

Ortiz said the girl, Felicitas Martinez, confessed killing Gallegos in his apartment here. She was calm and apparently untroubled by the slaying, Ortiz said.

The sheriff said the girl took him and his deputies to the apartment and re-enacted the killing, producing the piece of wood she used to strike the elderly man with and the knife she used in the slaying. She did not, however, give a motive, Ortiz said.

### Railroads Get New Leaders

NEW YORK (UP)—Both the New Haven and the Boston & Maine Railroads have new presidents, Patrick B. McGinnis quit the New Haven to head the B. & M., while Boston corporation lawyer George Alpert was elected to succeed McGinnis.

McGinnis, following up his announcement of last Wednesday, yesterday resigned from the New Haven. About seven hours later he was elected president of the B. & M. The line, came under control of McGinnis' allies last April after a proxy fight. The B. & M. had no president.

The New Haven directors elected the 58-year-old Alpert at a special meeting following acceptance of McGinnis' resignation.

### Atoms Studied For Sewage

LOS ANGELES (UP)—A laboratory here is experimenting with the decontamination of sewage by means of atomic energy.

An engineering firm which is planning 40 million dollars worth of improvements for the municipal disposal plant arranged for the tests, conducted here by a representative of Nuclear Science Engineering Corp., Pittsburgh, Pa.

Mayor Norris Poulson did not disclose the nature of the tests or the proposed decontamination technique, but his announcement yesterday said:

"If successfully developed, this new use of atom power might revolutionize present-day methods of sewage decontamination and disposal."

### Theft of Junk Metal Total Placed at \$300

The theft of \$300 worth of junk metal from the Sam Kline Junk company yard in West Salem Friday night was reported by city police Saturday.

The thieves apparently climbed the fence, forced the door on a storage building, removed 300 pounds of brass and 500 pounds of copper wire and threw it over the fence where it was loaded into a waiting vehicle and hauled away, officers said.

### Polite Robber Makes Impression

NEW YORK (UP)—Politeness paid off double yesterday for a holdup man. He left a Manhattan lingerie shop with \$140 in loot and made a good impression on the lady owner.

Mrs. Sara Spira told police a "nice-looking young man about 20 entered her shop at 120 E. 34th St., chatted, picked out a sweater and gloves which he said were for a girl friend.

Then he tried to repair Mrs. Spira's electric heater for her, but without success.

Finally he remarked: "I'm very sorry to have to disappoint you but this is a stickup." One hand in his pocket intimidated her and he pulled the contents of the cash register and stroled out.

Sighed Mrs. Spira: "Such a nice fellow."

### Waiter Fails to Report Tips Of \$67,000

NEW YORK (UP)—A former headwaiter at the Waldorf-Astoria Hotel has been indicted on a charge of failing to report more than \$67,000 he received in tips between 1949 and 1952.

The Internal Revenue Service says the case involving the retired headwaiter, Hans Paul, probably will touch off an investigation in this area of hotels and catering services at which workers make most of their money in tips.

Paul, 63, now is vacationing in Miami, Fla. He was indicted yesterday on a charge of failing to report the tips in his earnings during the four years preceding his retirement. The government says Paul's salary during that period was \$3,000 a year.

Asst. U. S. Atty. David Jaffe estimated Paul cheated the government out of nearly \$25,000 in taxes.

"It is believed the government has been duped out of millions of dollars a year by those persons who fail to report an accurate accounting of gratuitous tips," Jaffe said.

Paul will return here Feb. 9 to plead to the indictment.

C. C. Philippe, a vice president of the Waldorf-Astoria, said money collected contractually for waiters from dinners varied between \$500,000 and a million dollars a year for the past 10 years.

The tips go into a common pool, with the waiters getting two-thirds and the remaining one-third going to captains and others in the banquet department.

If convicted Paul could receive a maximum of five years in prison and a \$10,000 fine on each of four counts.

### RUSSIANS IN ANTARCTIC

MOSCOW (UP)—The Soviet polar expedition's second survey ship, Lena, was reported by radio Saturday to have reached the coast of Antarctica Friday in the vicinity of the Maswell Islands. She joined the Ob, which has been operating in the area since last month.

### COMMITTEE TO VISIT

The High School-College Relations Committee of the Oregon State System of Higher Education will visit North Marion Union High School Jan. 26 at 8:45 a.m., according to Principal M. H. (Pat) Beal.

The U. S. Coast Guard has operated a Nantucket Shoals lighthouse for 102 years.

### Food Industry Asked to Help Find Markets

ATLANTIC CITY, N. J. (UP)—Secretary of Agriculture Benson Saturday challenged the food industry to give more aid to the government in a search for new and broader markets for farmers.

Benson said a meeting of the National Canners Assn. in a prepared speech:

"There is no sounder investment of tax dollars in the future of the United States—in the health, prosperity and welfare of our people—than an investment in agricultural research, particularly in the field of new uses, new markets, new crops, improvements in our marketing mechanism, and an expansion of basic scientific knowledge."

Benson said industry itself as a "big stake" in such basic research, adding:

"I wonder, therefore, if private industries cannot do more than they are now doing to support basic research through grants to universities. Many corporations are already following this policy."

"I challenge you, and industry in general, to create basic research. We need it for many reasons. It is the foundation upon which advances in applied research are built. I challenge you also to step up the tempo of marketing research to help move agricultural products into use."

The cabinet officer outlined new administration farm proposals—featuring a soil bank plan which contemplates using surpluses to get a cutback in farm overproduction.

Blaming surpluses for many present farm problems, Benson said agricultural income last year would have been two billion dollars, or 20 per cent, greater and it not been for the price-depressing effects of such surpluses.

"The improvements we are recommending in the basic farm program are a workable approach to reducing surpluses, bringing production and markets into balance at fair prices, and so raising the income and advancing the security of our farm families," he said.

### Gunmen Grab Cast's Checks

NEW YORK (UP)—Two gunmen put on a three-minute, apparently rehearsed "bit" part backstage at a Broadway musical last night which cost the management \$7,000.

The bit play, "Plains and Fancy"—at the Mark Hellinger Theatre—stresses the difference between honest Amish folks in Pennsylvania and double-dealing of city slickers.

Just as company Manager Al Jones started to hand out paychecks to two of the girls in the show, stage doorman Jack Gill was called to the telephone. That's when the two bandits slipped through the stage entrance and confronted Jones and the girls.

Jones handed over an envelope holding individual packets containing pay for the performers and a number of backstage workers.
