No New Leads In WU Theft

There were no new leads Thursday in connection with the Tuesday theft of \$1,120 from the Willamette university business office, city police said.

Officers were busy following up on the few leads they had. They expected no immediate big break in the case, they said.

The money was taken during the Tuesday noon hour when the office was left unattended for a time. Mrs. Naomi James, office cashier, discovered the theft about 1 p.m., about a half hour after she had returned from a coffee break.

Not taken by the thief was a considerable amount of change that was in plain view, police said. They conjectured that the thief may have deliberately left it to prevent the discovery of the theft of the other money as long as possible.

Heyske is chairman of the Council of Local Gas Companies, which he described as an industrywide committee of gas distributing companies formed late in October, 1955, to try to defeat the gas bill.
