Estes and Dick Swap Farm Jobs

VP Foes Speak at Corn Picking Contest

COLUMBUS, Neb. (AP) — Vice presidential candidates Richard Nixon and Estes Kefauver spread their political wares Friday before a typical Midwest farm audience...

He asked support of the administration farm program that includes flexible price supports, a soil bank plan under which the farmers can qualify for benefits by taking some land out of production...

Sen. Kefauver, in his harshest attack yet on the President, said "there is no clearer record in existence than the record of betrayal of the American farmer by Dwight D. Eisenhower."

Following Nixon by about four hours, Kefauver struck out at the vice president, declaring "he is not a friend of the American farmer."

Adlai, 5 Demo Chiefs Blanket All California

OAKLAND, Calif. (AP) — Adlai E. Stevenson, who accuses President Eisenhower of "inaction" and "deception," led five Democrats today on a flying campaign through California.

"We have had enough of inaction and self-advertising," he said. He contended that "when we lose ground abroad, we are assured that all is well" and he added: "I don't think the public likes to be told by Mr. Dulles and President Eisenhower that American prestige has never been higher."

The Democratic presidential nominee made his latest attack on the GOP regime in a speech for a rally at Oakland last night before he broke camp for his swing route to Fresno, Long Beach and San Diego.

With him were three governors, George Leader of Pennsylvania, Robert B. Meyner of New Jersey and Frank G. Clement of Tennessee, and two senators—Hubert H. Humphrey of Minnesota and Albert M. Gore of Tennessee.

Martin, After Tour, Thinks Ike's a Cinch

WASHINGTON (AP) — House Republican leader Joseph W. Martin (Mass.) just back from a cross-country campaign tour, told President Eisenhower Friday "there is no question that a majority of the people" favor his re-election.

And two leaders of the Virginia Democrats for Eisenhower organization said they told the President the outlook in that state is "very, very favorable and we expect to carry Virginia again" for Eisenhower.

Virginia, normally Democratic, was one of the four Southern states Eisenhower carried in 1952. Martin told a White House news conference after conferring with the President that the big job for the Republicans is to get out the vote Nov. 6.

"If we get it out, and I think we will, there is no doubt that he (Eisenhower) will be elected by a very emphatic majority," Martin said.

FALLOUT MINIMIZED

'Cleaner H-Bomb' Revealed by U.S.

By JOSEPH L. MYLER United Press Staff Correspondent WASHINGTON (UP) — Atomic Commissioner Willard F. Libby revealed today that the United States actually has produced a "cleaner H-bomb."

It was the first disclosure that the so-called "reduced fallout" bomb really exists. Such a weapon would spread less deadly radioactivity throughout the planet than "dirtier" H-bombs of the same power.

In an address at a radiation meeting sponsored by the American Association for the Advancement of Science, Libby reported "new information" on radioactive fallout. Much of it dealt with Operation Redwing, the U.S. nuclear test program stated at the Pacific proving ground between May 5 and mid-July this year.

School Board Vetoes Buses for Richmond

nature has developed through the closure of the North 14th street bridge over Mill creek. The bridge is being rebuilt, a circumstance that throws the bus routing out of gear.

The board agreed to the suggestion of Supt. Charles Schmidt that the southwest corner of D and 14th street be rounded off to permit easier maneuvering of the buses. This is the location of North Salem high where a number of buses are stored.

Third Meeting Set Pineau, British Foreign Secretary Selwyn Lloyd and Egyptian Foreign Minister Mahmoud Fawzi had conferred for 1 1/2 hours with Hammarskjold, Pineau, Lloyd and their delegations then conferred for another hour without the secretary-general and scheduled a third meeting with him later in the day to prepare a report for the Security Council.

Pineau, president of the Council for October, told correspondents the 11-nation Council would meet in private session late Friday afternoon to hear the report.

Britain and France are promoting a plan to have the council endorse the 18-nation London proposal for international operation of the Suez Canal, which Egypt nationalized July 26. They have been talking with Fawzi in an effort to see whether he has any counter proposals to that plan, which Egypt has rejected.

OSC Football Star Accused Of Bike Theft CORVALLIS (AP) — Paul Lowe, sophomore back who is Oregon State's leading ground-gainer, Friday was accused of stealing a bicycle on the campus last June.

A bench warrant was issued for his arrest after a grand jury returned a felony indictment against him.

Dan Poling, Oregon State dean of men, said the school does not intend to take any immediate action in the case.

Lowe, a 177-pound tailback from Los Angeles, was indicted along with another student, Bert Washington. They were accused of taking two bicycles from the campus June 29 without permission of the students who owned them.

Washington is not on the football squad. Police said they found Lowe and Washington riding the bicycles several days later. Arrested, they waived preliminary hearing in district court July 7 and were released on their own recognizance.

The possible penalty is a fine up to \$500 or a prison sentence up to two years.

Sheriff C. N. Lilly said he was making arrangements with Poling to have the two in court this afternoon.

Lowe could not be reached at once for his version of what had happened.

Highway Boss Named by Ike WASHINGTON (AP) — President Eisenhower Friday picked Bertam D. Tallamy of New York to head the government's new \$3-billion-dollar highway construction program.

Tallamy is chairman of the New York State Thruway Authority. White House press secretary James C. Hagerty said Tallamy will take over the \$20,000 a year job early next year.

3 Nations Said Near Suez Pact

Egypt Near Ready To Settle With West in UN UNITED NATIONS (AP) — A French delegate reported progress "on the principles" of a Suez settlement after private talks by representatives of Britain, France and Egypt Friday.

Ambassador Bernard Cornut-Gentille, French permanent U.N. representative, gave that report to correspondents as he emerged, with French Foreign Minister Christian Pineau, from conversations in U.N. Secretary General Dag Hammarskjold's office. He would not elaborate.

Third Meeting Set Pineau, British Foreign Secretary Selwyn Lloyd and Egyptian Foreign Minister Mahmoud Fawzi had conferred for 1 1/2 hours with Hammarskjold, Pineau, Lloyd and their delegations then conferred for another hour without the secretary-general and scheduled a third meeting with him later in the day to prepare a report for the Security Council.

SOS Calls For 59 Yanks Down at Sea

Burning Bridge Paves Way for New Structure

One of Salem's bridges was burned to the waterline Thursday, but the fire department didn't have to answer the call. The old wooden bridge on North 14th street over Mill creek was fired intentionally in preparation for the building of a new concrete structure there in one of the projects approved by voters last spring.

Burning was easier than hauling away the rotted timbers. O. C. Bennett, Portland contractor, keeps a watchful eye on the blaze. (Capital Journal Photo by Jerry Claussen)

Another project scheduled to start next week will be the South 12th street bridge which is tied with the 12th street widening project. Davis said this is scheduled for completion by Dec. 31.

The aeronautics office said Alvin F. Oien, flying alone in a single-engine Fairchild, did not report his landing to the Civil Aeronautics Administration. Not until Friday morning, when Oien took off to continue his flight to Portland, did authorities learn he was safe.

Authorities called off an air search which had started in Southwestern Montana, where a stormy weather kept all but a few search planes on the ground.

Britain Frees Russ Athlete On Conviction LONDON (UP) — A British court today found Soviet discus champion Nina Ponomareva guilty of stealing five hats from a London shop. But it freed her with payment of light court costs to permit her to return to Russia "at the earliest possible moment."

Nina pleaded innocent to the theft charge, which Moscow had said was a "provocation" designed to embarrass an eminent athlete.

However, Magistrate Clyde Wilson, before whom she was tried in jam-packed Marlborough Street Court, ruled that the charges of shoplifting had been proved against the 27-year-old Moscow schoolteacher.

But, apparently mindful of international repercussions, he released her unconditionally on payment of three guineas (nine dollars) court costs.

Defense attorney Mervyn Griffith-Jones said arrangements had been made for Nina to "return to Russia at the earliest moment."

The Soviet ship Molotov already had up steam at London's Surrey docks in preparation for sailing tonight.

80 Planes in Search Find Nothing

LONDON (AP) — Distress signals spurred a gigantic search today for a U.S. transport plane missing with 59 servicemen aboard. There was not a hint of success.

At least 80 planes from bases in a half dozen countries—including giant six-engine U.S. Stratofortress bombers—an aircraft carrier and destroyers scoured the area north of the Azores in an effort to pin down the source of the messages.

But back to base came these reports from the searchers: "No luck. Nothing sighted."

50 Airmen, Crew of 9 The missing plane, a C118 Liftmaster of the U.S. Military Air Transport Service, was due at Lajes Air Base on the Azores, Thursday morning. It carried 50 Air Force personnel returning to the United States from duty in Britain and a Navy flight crew of nine.

After a long silence a string of SOS signals was picked up by commercial airliners flying early Friday between Britain and New York. Belief was expressed the distress calls might be coming from portable transmitters on rubber life rafts carried by the missing aircraft.

But in New York, three trans-Atlantic pilots who heard the distress signals said they were later informed the calls came from land stations sending out alerts about the plane.

Another Picks Up Real Call Still another Pan American pilot reaching New York, however, said he picked up a signal which he believed came from "an original source" while his plane was 200 to 225 miles northwest of the Azores.

The Air Force estimated the signals were coming from a point approximately 150 miles north of the Azores.

The position from which it was estimated the SOS signals came was more than 800 miles beyond the missing plane's last position report. But an Air Force spokesman said the aircraft could have lost radio contact with the ocean control tower at Shannon Airport in Ireland and flown on toward its destination before going down.

"We would be surprised to find it so close to the Azores, but it's possible," the spokesman added.

Death of Sack Again Decried

PORTLAND (AP) — George F. Sack, Portland apartment house owner, Thursday was sentenced for the second time to death in the Oregon state prison gas chamber for the slaying of his wife, Goldie, in February, 1954.

Circuit Judge Frank Lonergan set the execution date for Dec. 14. Patrick J. Hannon, Sack's attorney, said he will appeal to the U.S. Supreme Court. He contended that Sack did not get a fair trial because of publicity given the case in Portland newspapers.

Sack, who gives his age as 60, originally was scheduled to die Dec. 10, 1955. The execution was stayed, however, by an appeal to the state Supreme Court, which later refused to grant a re-hearing.

Kowloon Riots Cease; Chinese Border Sealed

HONG KONG (AP) — An uneasy quiet settled today over riot-torn Kowloon and surrounding villages. Authorities kept a tight curfew clamped on Hong Kong's mainland territory where two days of frenzied rioting and a national fighting left 44 known dead.

The colony's British government also sealed Hong Kong's border with Communist China presumably to prevent Red agents from slipping across to further inflame the atmosphere.

Acting Gov. E. B. David extended the curfew imposed Thursday until Saturday morning to give police a better chance to round up persons suspected of leading the riots.

Housewives in each of Kowloon's six curfew zones were allowed only two hours a day on the streets to buy provisions. Gurkha troops from Himalayan Nepal lined the streets as crowds rushed to the stores where prices already were soaring. Spotter planes hovered overhead.

Except for those hours, Kowloon was almost a dead city. Its streets were deserted, and most restaurants and all movie houses closed their doors.

Overdue Flier Safe at Baker

A Portland, Ore., flier reported overdue between Billings, Mont., and Northeast Oregon landed safely Thursday night at Baker, Ore., the state Board of Aeronautics reported Friday.

The aeronautics office said Alvin F. Oien, flying alone in a single-engine Fairchild, did not report his landing to the Civil Aeronautics Administration. Not until Friday morning, when Oien took off to continue his flight to Portland, did authorities learn he was safe.

Authorities called off an air search which had started in Southwestern Montana, where a stormy weather kept all but a few search planes on the ground.

Congressman Priest Dies After Operation

NASHVILLE, Tenn. (AP) — Rep. J. Percy Priest, a member of Congress from the 5th Tennessee Dist., for 16 years, died here early today. He was 56.

He was operated on for an ulcer several days ago, and had been reported in satisfactory condition. Associates said he was "settling down nicely" yesterday, but his condition worsened during the night.

Priest was chairman of the House Commerce Committee during the past session of Congress. He had served as Democratic whip in the House for several years.

George Spence of Nashville, representative here of a St. Louis box manufacturer, is the Republican nominee. The Davidson County (Nashville) Democratic Executive Committee will choose a party nominee to replace Priest at a date to be determined later.

A former newspaperman, Priest left the editorial staff of the Nashville Tennessean to campaign for office in 1940.

Britain Frees Russ Athlete On Conviction

LONDON (UP) — A British court today found Soviet discus champion Nina Ponomareva guilty of stealing five hats from a London shop. But it freed her with payment of light court costs to permit her to return to Russia "at the earliest possible moment."

Bridge Project Ahead Of Schedule in Salem

A major part of Salem's bridge construction will probably be finished by the first of next year, City Engineer J. H. Davis said Friday.

This will be some months ahead of the April contract completion dates, Davis said, but will depend quite a bit on progress made during the next month and a half.

Bridges okayed for construction under last spring's \$40,000 bond issue are now underway include the South High street bridge over Shelton ditch, the Lee street-Shelton ditch bridge and the North 14th street-Mill creek bridge.

Latest project to be started is the North 14th-Mill creek bridge, which was burned Thursday afternoon when it was decided lumber salvage would be negligible.

The possible penalty is a fine up to \$500 or a prison sentence up to two years.

Sheriff C. N. Lilly said he was making arrangements with Poling to have the two in court this afternoon.

Lowe could not be reached at once for his version of what had happened.
