

### UCLA May Build Computer to Probe Into Fourth Dimension

LOS ANGELES (AP)—A team of UCLA scientists has proposed building an electronic brain in the hope of finding the true fourth dimension that may exist all around man.

### Lumber Chief Says Taxation Stifles Nation

SAN FRANCISCO (AP)—Federal income tax laws have brought "welfare statism" and "big union monopoly" to the United States since their adoption 43 years ago.

Kenneth Smith, San Francisco, vice president of the Pacific Lumber Co., outlined his views at the opening session of the 47th Pacific Coast Logging Congress.

Smith criticized industry-wide labor bargaining which he said "cannot be anything except damaging" to the public whose "real interest" is "served by those employers who keep down costs."

### Ike, Nehru to Get Together

WASHINGTON (AP)—India's ambassador said after a White House visit Tuesday that President Eisenhower and Prime Minister Nehru have agreed to meet here, probably before the end of this year.

Ambassador G. L. Mehta told newsmen that a definite announcement setting the date will be made simultaneously in New Delhi and Washington within a week.

### Boost-Kennedy Group Forming

LOS ANGELES (AP)—A pioneer booster of FDR for president says he is forming an association to acquaint California, Oregon and Washington Democratic voters with the talents of Massachusetts' U.S. Sen. John F. Kennedy.

Atty. Patrick J. Cooney, who said he incorporated a Franklin D. Roosevelt for President association in California in November 1930, two years before Roosevelt was elected, said:

### Photos Contracted to Evaluate Flood Loss

PORTLAND (AP)—The Army Engineers plan to use aerial photographs to evaluate flood damage in the Coquille, Rogue and Umpqua River basins.

### UN Continues Feeding Arabs

TEL AVIV (AP)—The U. N. Relief and Works Agency has agreed with Israel to continue feeding Arab refugees in the Gaza strip on a temporary emergency basis.

### Marines Fight Mock War at Camp Lejeune

CAMP LEJEUNE, N.C. (AP)—Twenty thousand Marines, employing the new scatter-and-attack concept of atomic warfare, pushed inland today to take Camp Lejeune back from a hypothetical enemy.

### John Declares He Pretended To Cooperate

KARLSRUHE, Germany (AP)—Dr. Otto John testified Tuesday he was "several times on the verge of committing suicide" during the 17 months he stayed behind the Iron Curtain.

### Lethal Racket Confronts L. A.

LOS ANGELES (AP)—It's four times noisier in Los Angeles than it was 20 years ago. At this rate, in another 20 years the racket will be "virtually lethal," says Dean Vern O. Knudsen, UCLA vice chancellor.

### Marines Fight Mock War at Camp Lejeune

He has advanced the concept that by studying the limitations of his brain, man may be able to build a computer that can peer around "the fourth dimensional corner" and translate what it finds there into a language he can understand.

If that occurs, says Dr. Tschirgi, "events which seem now to be unpredictable, and therefore unavoidable, might be foreseeable, and the future would seem less mysterious."

Dr. Tschirgi and his associates, Dr. R. Dekaan and Dr. U. L. Taylor, have been engaged in a theoretical study of dimensional perception during the past year. A report on their theories was released yesterday.

Time is frequently considered to be the fourth dimension. But Dr. Tschirgi proposes the idea that time is essentially a biological factor and is primarily related to a "clock" in man's brain.

"In the world outside of us," he says, "motion may occur in directions which we cannot 'see' and which we must therefore interpret only as a change in time."

### Printers Face Strike Force In Argentina

BUENOS AIRES, Argentina (AP)—The government Tuesday threatened strong action to end a strike by printers in Argentina's newspaper, magazine, and commercial printing plants.

Across the Andes, printers called a similar strike in Santiago, Chile's capital, to back their demands for wage increases. Chilean President Carlos Ibanez immediately ordered conferences in an effort to head off the walkout.

The nationwide strike by an estimated 50,000 Argentine printers began Monday. The government declared the stoppage illegal, and the printers' union scheduled a meeting to consider the government action.

Publishers' spokesmen said the printers were demanding wage increases averaging 80 to 90 per cent. They said management had offered boosts of 40 to 45 per cent. Union spokesmen said the two sides were too far apart for arbitration.

### East's Weather Clear and Cold

By THE ASSOCIATED PRESS  
Clear and cold weather prevailed in most of the eastern half of the nation today, but some warming was indicated for the mid-continent.

The cold air extended from the Atlantic Coast westward to a line from Wisconsin southwestward through central Mexico, but did not include the southern half of the Gulf Coast states.

Temperatures in the frosty belt ranged from around freezing in the north to near 50 in southwestern Texas.

There was a warming trend from eastern Montana through northwestern Kansas. A general warming was indicated during the day from the Ohio Valley westward to the eastern Dakotas and southward through Texas and the Gulf Coast states.

New England will have cold and snow flurries.

### UN Continues Feeding Arabs

TEL AVIV (AP)—The U. N. Relief and Works Agency has agreed with Israel to continue feeding Arab refugees in the Gaza strip on a temporary emergency basis.

UNRWA has been housing and feeding about 200,000 Arabs who fled or were driven from Israel to the Gaza strip during the Arab-Israeli war in 1948. The strip was under Egyptian administration until Israeli troops occupied it along with the Egyptian Sinai Peninsula over a week ago.

### John Declares He Pretended To Cooperate

"But in my very heart, I never surrendered to them or else I would not be here."  
John is accused of leaking state secrets and denouncing agents of his FBI-style office after crossing into East Berlin July 29, 1954. He returned last December to surrender to West German authorities.

The former West German intelligence chief told the Federal Supreme Court trying him on treason charges that only by pretending to cooperate with the Communists could he have hoped to get back to the west.

"Actually I did not give away any real secrets. Had I refused, they would have robbed me of my free will and I might have betrayed everything," John said.

Addressing the third West Coast Noise Symposium, Knudsen suggested heavier home insulation and as a last resort, ear plugs.
