UNITED NATIONS, N.Y. (AP)—Pakistan called on the Security Council today to order withdrawal of all foreign troops from Kashmir.

The Karachi government asked that a U.N. police force be sent to keep peace in the Himalayan state. Pakistan and India have disputed for nine years.

Pakistan foreign Minister Malik Feroz Khan Noon, in a 9,500-word statement, told the council there is no other way to solve the dispute.

He claimed that more than half a million tribesmen on the Pakistan-Kashmir frontier are clamoring for a mass movement into the disputed state to win for the Kashmiris "their right of self-determination."

Britain's grant of independence to India in 1947 left Kashmir, a Hindu, plumped for India but Pakistan refused to recognize his action. Parts of the state are now occupied by both Pakistani and Indian troops.

Noon said Pakistan wants to see a plebiscite held to decide the state's future, as recommended by the U.N.

He charged that India "has renege[d] and consistently flouted all reasonable proposals formulated by the Security Council or by its mediators and is taking steps to integrate Kashmir into the Indian union."

### U. S. Spending Fixed at \$416 Per American

WASHINGTON (AP)—The record federal peacetime spending in the next fiscal year is going to cost every man, woman and child in the country an average of \$416 each.

At the same time, each person's share of the all-time record revenue to be collected with amount to \$427 each. The extra \$11 each makes up the expected surplus for debt reduction.

These figures represent increases per capita in spending and tax collections for the third straight year.

The new budget sent to Congress by President Eisenhower calls for \$71,000,000,000 in spending and collection of \$73,600,000,000 in revenue in the 1958 fiscal year beginning next July 1. The Census Bureau estimates the population next Jan. 1 will be 172,500,000 persons. The population at this midpoint of the fiscal year is used by the government in figuring averages.

The new average of \$416 for spending will be \$10 higher than the \$406 for the revised estimates for the current fiscal period. It previously had moved up from \$394 per person in fiscal 1955 to \$399 in fiscal 1956. That means an over-all jump of \$22 per person in spending over the period 1955-1958.

The share for each person in the amount of revenue collected has moved up even more sharply—\$39 since fiscal 1955.

Computations showed the average taxes for each man, woman and child was \$368 in 1955. It jumped up to \$409 in fiscal 1956 ended last June 30, will edge up to \$416 in the current period and amount to \$427 in the next fiscal year.

### Court Rebuffs Fumes Appeal

WASHINGTON (AP)—The U.S. Supreme Court Tuesday refused to hear the case of a group of Washington state farmers who claimed they suffered \$875,000 in damages from aluminum plant fumes.

It was the third denial the farmers had run into. The first was in 1954 when District Judge George H. Boldt at Tacoma held their claims were not justified. His decision later was upheld by the U.S. Court of Appeals at San Francisco.

The farmers asserted fluorides in aluminum plant fumes had caused \$350,000 damage to animals and \$525,000 in other property damage. The Reynolds Metals Co. plant at Troutdale, Ore., and the Reynolds plant at Longview, Wash., were named in the suit.

OLYMPIA (AP)—Gov. Arthur B. Langlie presented the 35th Legislature with a balanced budget as a farewell gift Tuesday.

With tears welling in his eyes and emotion choking his voice, the outgoing Republican chief executive ended a public service career that started 21 years ago on the Seattle City Council.

He said the budget that will be presented in detail to the Legislature Tuesday afternoon "is the largest in the state's history."

He did not say what the total 1957-58 budget would be, but he indicated it would call for approximately 651 million dollars from the general fund, 104 million more than in 1955-57.

He said it would be balanced without additional taxes and added:

"If there is one point that I would stress more than another to this Legislature... it would be this: Do not spend more money than the state can reasonably anticipate from existing revenues, and such additional income as you as legislators find it necessary to create."

FORT WORTH, Tex. (AP)—Billy Graham, world-famed evangelist, Tuesday night questioned the Middle East policy in an address before a Baptist conference.

"...with the Eisenhower Doctrine covering with a shield the Middle East," he said, "the American people must now ask themselves this question—Do we have the moral and spiritual qualities to protect an Arab nation in the deserts... when we did not have the moral and spiritual qualities to protect the Hungarians?"

Asked Graham:

"Are we willing as an American people... to start a third world war to protect a bit of sand and some nomad tribes... when we were not willing to start it in order to keep Communism from grabbing all of China?"

"These are the most dangerous and critical hours in the history of our race," he said.
