

Local Paragraphs

Sign Installed—At the request of residents of the area, the county is installing a traffic sign bearing the legend "Prepare to Stop" where the St. Paul road connects with the Broadacres-Donald highway.

Alterations Okayed—Permits for a \$500 alteration to the F. F. Dietz home at 1860 Lee St. and a \$300 reroofing at the Bennett W. Hood home at 1438 Chemeketa St., were issued by the city engineer's office Tuesday.

On Honor Roll—Willard Vandermolen, Harry Juhl, Robert Satter and Glen Wagers, all of Salem, were named to the fall term honor roll at Oregon Technical Institute at Klamath Falls. It was announced by the school.

Professor Writes — "The Good Law School," an article comparing American and European law schools written by Dr. Reginald Parker of the Willamette university law school, is published in the current issue of the American Bar Assn. Journal.

Hubcaps Stolen—Thomas Head, 687 North Church St., reported to city police Tuesday the theft of four hubcaps from his car. Robert Hart reported the theft of two hubcaps from his vehicle and Lester Savage, 1283 Woodacre Dr., lost one hubcap, he said.

Governor's Oath Just as Sacred

When Gov. Robert D. Holmes took his oath of office Monday, he didn't swear on the Bible because somebody forgot to provide one. Chief Justice William C. Perry said Wednesday that the oath was just as sacred as if a Bible had been there.

News of Record

CIRCUIT COURT
Francis M. Mitchell vs. Warden Clarence T. Gladden: Order sustaining defendant's demurrer and dismissing proceeding.
Salem Federal Savings and Loan Assn. vs. Karl T. and Pauline F. Murphy et al: Suit for judgment of \$12,183.32 and a decree calling for foreclosure of a mortgage upon real property.

State vs. Robert Dial: Defendant pleads guilty to charge of furnishing liquor to a minor, county jail sentence of 90 days suspended and fine of \$200 assessed. Placed on probation for a year upon payment of fine.
State vs. Jim Carl Dunbar: Defendant ordered to make restitution and placed on probation for a year on charge of obtaining money by false pretenses.

PROBATE COURT
Mailla Craig estate: Order appointing Violet Harvey administratrix.
J. Albert Barry estate: Final account.
Wallace L. Barnes estate: Final account.
William Leslie Sloan estate: Order admitting will to probate and naming Verna Daisy Henderson administratrix.

MARRIAGE LICENSES
Luther L. Lee, 30, electric repair serviceman, 2845 North 4th St. and Mary Edith Williams, 30, waitress, 448 Union St.
Robert Dalton, 46, painter, and Betty M. Gagnon, 49, practical nurse, both 640 Marion St.
Harris Hermanson, 28, farmer, and Cornelia Schilling, 21, housewife, both of Mt. Angel.
Ralph Joseph Smith, 29, service station operator, Gervais, and Kathryn Marlene Thompson, 18, at home, Woodburn.
Richard B. Ahrens, 19, salesman, Woodburn, and Dorine Lenora Brown, 19, clerk typist, Salem.
ALBANY—J. Bennett, 80, and Ollie Dannaals, 65, both of Albany.
LYNN—Lynn M. Grace, 32, Star Route No. 2, Philomath and Sarah J. Nyman, 21, Philomath.
Jack Radlich, 31, and Elsie M. Ingles, 37, both of Springfield.

Public Invited To Lecture on Suez Question

Nassar and the Suez Canal question will be discussed by Mrs. Naguida K. Mahmoud, an Egyptian school teacher, Thursday at 8 p.m. in Waller Hall on Williams-ette university's campus.

The lecture, sponsored by the local chapter of Pi Gamma Mu, national social science honorary, is open to students and townspeople free of charge.

Headmistress of a secondary school for girls in Cairo, Mrs. Mahmoud is visiting in Salem with a group of five educators who are in Oregon under the 1956 international teacher education program sponsored by the U.S. Department of Health, Education, and Welfare.

According to the Pi Gamma Mu president, Mrs. Mahmoud will discuss the Middle East situation from the viewpoint of the Egyptians, beginning with the date of the treaty, 1869, when the canal was built.

Valley Basks In Sunshine; 18 Low Due

A new wave of sub-freezing weather moved in on Salem and the valley area overnight Tuesday, but most folk did not mind because of the beautiful sunshine and bright skies Tuesday morning brought.

The minimum this morning in Salem was at the 26-degree mark. Even colder temperatures are due tonight, a low of 18 being forecast in Salem.

The clear cold weather is due to continue through Thursday, and the five-day forecast calls for generally clear conditions until the weekend.

A warning trend, bringing some rain, is due to set in at the weekend. Meanwhile, minimums are due to remain in the 20s for the valley. The later rain is scheduled to be light.

Pendleton appeared to be the state's coldest spot this morning with a minimum reading of 2 below zero. Baker reported 2 above zero. Bend reported 10 above.

Funeral Services for Mrs. Hollett Thursday

Funeral services for Mrs. Mary Hollett will be held Thursday at 1:30 p.m. at the Virgil T. Golden chapel with interment at City View cemetery.

Mrs. Hollett, mother of Fred Hollett of this city, died Tuesday in her home at Longview, Wash. 70 years of age.

Legislation

High among these was his call for a four-year program of federal matching grants to help build classrooms throughout the nation. He asked 451 million dollars to get the program started.

The budget message suggested an increase to 5 per cent in the 4 1/2 per cent limit now fixed by law on home loans guaranteed by the Veterans Administration. The idea would be to make more money available for GI loans, now hard to get in many areas.

New Gas Bill Asked
Eisenhower called for a new natural gas bill, having the same intent as the one he vetoed last year — to exempt gas producers from the public utility type of price regulation. He called for safeguards to insure that "the price to the public will be fair."

On the atoms-for-peace front, he advised industry to get busy. Unless private capital shows "reasonable" progress in starting atom-fueled electric plants, he said, he will recommend "direct construction by the federal government."

The President asked enactment of these additional major measures, many of which are leftovers from his 1956 legislative program:

More Immigrants
A widening of the immigration rates. He supplied no details, but presumably this would admit more Hungarian refugees as well as others.

Extension of the 51-an-hour minimum wage to more workers. He did not name the new wage-earners to be included, but 20 million remain uncovered.

An "extended and improved" unemployment insurance program.

A boost in postal rates, to wipe out most of an anticipated 642-million-dollar Post Office deficit.

Statehood for both Alaska and Hawaii. It was Eisenhower's first formal nod to Alaska, and it was qualified. Alaska's statehood would be subject, he said, to "area limitations and other safeguards for the conduct of defense activities."

Tightening of the antitrust laws, chiefly by requiring that merging companies notify the government in advance.

Federal loans and other aid to "chronic" areas of depression, though he set no price on this program.

U. S. adherence to the proposed 35-nation Organization for Trade Cooperation and to the 72-nation International Atomic Energy Agency.

And perhaps another score of measures, including one to provide an official residence for the Vice President.

More special messages will round out the legislative program sketched today. Eisenhower said the administration in the next few months will recommend "a number of important legislative proposals."

Slick Streets Cause Crash

A car was heavily damaged and the Marion street bridge railing also damaged in an accident Tuesday night, city police reported.

Robert Peter Walery, 625 Catterlin St., told officers he was going down the Wallace road ramp to the bridge when his car began skidding on ice. He hit the brakes, he said, and the car swerved into the bridge railing.

The car apparently struck the railing in two places in the 9-25 p.m. accident, officers said, and ended up facing the wrong way on the one-way ramp. There was heavy front end and left rear damage to the car. It was towed away.

Walery was not hurt, officers said.

Senate Hassle

Means, Education, Labor and Industries, and either Commerce and Utilities or Natural Resources.

Pearson said his party has a mandate from the people because they voted in November for a Democratic majority in the House of Representatives, and for 12 Democrats in 15 Senate races.

This mandate, he said, is "to prevent the governor's program from being stymied in 'Senate committees that are controlled by Republicans.'"

The committee which negotiated the plan to divide committee control consisted of Sen. Philip S. Lowry, Medford; Lee Ohmart, Salem; and Carl Francis, Dayton, all Republicans; and Ward Cook, Portland; Harry Boivin, Klamath Falls; and Alfred H. Corbett, Portland, Democrats.

They negotiated all day Tuesday in secret. When Lowry asked his fellow negotiators Tuesday night for permission to announce details of the plan because "the public is entitled to know," all agreed except Corbett.

Lowry when said he wasn't free to tell about the plan because of Corbett's objection, but details were easily obtained after the session ended.

The Republicans, at a caucus after the night session, invited news reporters to attend for a briefing.

Lowry then said he wasn't free to reveal the Democrats "any number of formulas," but that none had been accepted by them.

Gill, pointing out that the Democrats agreed to an even division of committees, said "their idea of an even division is to trade a horse for a rabbit."

VISITS PARENTS
LYONS (Special)—Miss Sandra Knox, employee of the telephone company spent several days with her parents, Mr. and Mrs. Merwin Knox.

Ike's Budget

—about \$200,000,000 less than he figured last August, and put government revenue at an unprecedented \$70,600,000,000 — about \$800,000,000 more than the August forecast.

2. Estimated the national debt next June 30 will be trimmed to \$270,600,000,000 and on June 30, 1958, to \$269,200,000,000. These figures would compare with the \$267,270,000,000 debt existing when he took office Jan. 20, 1953.

3. Called for new appropriations of \$73,300,000,000, up \$2,800,000,000 from this year and only 300 million less than projected revenues for the next fiscal year. The total is 1 1/2 billion more than his spending outline and marks the second straight year in which he has asked for more spending authority than he planned to use within that 12-month period.

Taxes Too High
Eisenhower said tax rates are still too high, but "urgent national responsibilities" foreclose a general tax cut now.

He asked the lawmakers to continue for another year the present 52 per cent tax on corporate profits, along with excise taxes on tobacco, liquor and automobiles, which otherwise would drop back on April 1.

He said he expects individual income tax payers to pay 2 1/2 billion dollars more next year than this year, providing 41 billions of his \$73,600,000,000 revenue estimate. Another 22 billions would come from corporation taxes, up 600 millions from this year's estimate.

On the expense side, he predicted the heavy demand for credit and capital in the prosperous economy would push interest on the nation-

Special 'Church Sunday' Planned By City Jaycees

Jaycees are going to "do their part" this week, by going to church on Sunday.

This, says one of the group officials, is just another effort of the Jaycees toward the betterment of the community. This move has the support of the Salem Ministerial association and of other churches in the area.

This "Church Sunday" is, say the Jaycees, the first event in their

14 Pei. More for Bases
He said spending for military public works at bases at home and abroad would be up about 14 per cent next year.

He said the defense budget will aim to carry out the basic missions of the services, including "nuclear-air-reliability forces so strong that they will deter a potential aggressor from initiating an attack."

He recommended atomic energy spending be raised by 380 million to \$2,340,000,000.

The \$4,363,000,000 foreign aid figure he proposed — 256 million more than this year — includes half of the 400-million-dollar emergency fund he already has requested to give military-economic help to the Middle East during the next two years.

Of the foreign aid total, \$2,600,000,000 would be earmarked for military aid and the rest for economic aid.

A record sum of \$5,329,880,000 was recommended to aid farmers and the Agriculture Department. This is a \$178,215,000 increase.

SUFFERS INJURY
SMITHFIELD (Special)—Rose Gillum suffered a cut on his leg while skiing at Mt. Hood recently. Seven stitches were required to close the wound.

IBM

invites E.E.'s, I.E.'s, M.E.'s, physicists, mathematicians and technicians to INVESTIGATE CHALLENGING ASSIGNMENTS AT THESE LOCATIONS

Kingston, N.Y. Development, manufacture and maintenance of world's largest electronic computer for Project SAGE, the nation's plant radar net. Planning includes non-military uses of high-speed, large-scale computers. Openings exist in: • Technical writing • Computer circuit design • Reliability engineering • Field engineering for both engineers and technicians	Poughkeepsie, N.Y. Basic and applied research directed toward future electronic data processing systems. IBM's famous commercial digital computers 704 and 705 designed, developed and produced here. Among positions available here are: • Computer programming and planning • Electronic circuit design and packaging • Real Time Systems engineering • Semi-conductor research, development and manufacturing • Drafting and designing • Test equipment design	Endicott, N.Y. Design, development and production of IBM's 650 intermediate-size data processing machine, electro-mechanical accounting machines and Time Equipment—such as new Automatic Production Recorder. Among areas for which experienced men are needed are: • Electrostatic phenomena • Photo and magnetic device memory • Computer design and development • Production test engineering	Owego, N.Y. Design, development and manufacture of high-speed electronic bombing-navigational systems computers for Air Force. Job openings exist in: • Electronic circuit design and packaging • Design of complex electro-mechanical computing units • Tool engineering and production cost estimating • Plant facilities engineering • Design of hydraulic power and control devices • Numerical analysis, statistics, programming and operational analysis
San Jose, Cal. Birthplace of RAMAC, revolutionary new random access memory system for "single step" data processing. Typical of openings available are: • Computer systems planning • Computer systems test and analysis • Plant layout and space planning • Quality control • Electronic circuit design • Numerical analysis and advanced programming	Rochester, Minn. New plant for the manufacture of industry-famous IBM electro-mechanical accounting machines. Positions available for men experienced in: • Plant layout • Material handling • Tool engineering • Machines design • Electrical circuit design • Powder and other process metallurgy	Lexington, Ky. New world center for electric typewriter development including IBM's recently announced Electronic Tabulation. Among many existing openings are: • Tool engineering design • Statistical quality control • Product cost estimating • Electronic circuit design • Design of original and complex mechanisms	San Jose, Cal. Since 1914, IBM has grown at the rate of 12% per year. Sales have doubled, on the average, every five years since 1930. Engineering lab personnel has quintupled in the past five years. Yet the rate of turnover is less than one-sixth the national average! IBM's promotion policy is "advancement strictly from within—and on merit alone." "Small-team" organization assures ready recognition of merit. Individual growth and advancement are encouraged by every opportunity for continued study, including a chance to pursue advanced degrees at company expense. Salaries are among the top for industry, and company-paid benefits (insurance, hospital, medical and retirement plans) most liberal.

SALEM INTERVIEWS
IBM, 1270 Center Street
Fri., Jan. 18, 5 p.m.-9 p.m., Sat., Jan. 19, 9 a.m.-4 p.m.
To make an appointment, phone Salem 5-9281 any day we come in, on the above dates, to the above address.
If you can't come in, write, giving details of background and interests, to: B. A. Whitehouse, IBM, Dept. 619 (N.Y.), 599 Madison Avenue, New York 22, N. Y.
IBM Laboratories and Manufacturing Plants are located in: Poughkeepsie, Owego, Endicott, Kingston, N. Y.; Rochester, Minn.; Lexington, Ky.; and San Jose, Calif.
