

European Nations' Unity Move May Dim U.S. Trade Hike Hope

By SAM DAWSON

NEW YORK (AP)—Many businessmen today are looking for expanded foreign trade this year — no matter how the congressional debate goes over expanded foreign aid.

But a new possible barrier to American goods may be in the making across the Atlantic this coming weekend.

American exporters are watching closely the move of Western European nations to unite in one common market — a move which some here fear would erect new trade barriers against American goods. About a fourth of U.S. exports are taken each year by those nations.

The urge to unite economically was given a big push by the Suez Canal closing, which brought all European nations a shortage of essential oil.

The Swiss Bank Corp. of Basle notes that this disaster "demonstrated convincingly that all peoples of Western Europe share a common destiny."

Some Oregon Areas to Get Snow Tonight

By THE ASSOCIATED PRESS

One new storm and another that has been around for several days are expected to bring snow to some areas Tuesday night and Wednesday and rain to other sections of Oregon.

The Weather Bureau said a new storm forming off the California coast will move into the southern part of the state Tuesday, bringing rain to the western portion and snow in the Klamath Falls area.

A second disturbance—slowly moving down from the Gulf of Alaska—Monday night poured rain on northwestern Oregon and will turn in a repeat performance through Wednesday.

The low pressure area forming all along the coast will draw east winds of 12 to 25 miles an hour through the Columbia Gorge, where additional snow flurries are due.

Freezing rain and snow are expected in the interior of western Oregon Tuesday night, changing to widespread showers by Wednesday.

The low Tuesday night east of the Cascades will range from zero to 15 degrees and the high Wednesday from 15 to 25 in the north to 20 to 30 degrees in the south.

Bulgaria Cuts 5-Year Plan

VIENNA (AP)—Satellite Bulgaria, like its master Russia, is having to cut back its too-ambitious five-year plan.

The government-controlled Radio Sofia said today that the plan was failing because of shortages of money and raw material. It said Bulgaria's agriculture also had not fulfilled its production quotas in 1956.

"The Soviet Union has helped us with raw materials and also with credits to keep our unemployed off the streets," the broadcast said.

"Now we have had to reduce our national investments in the economy by 750 million leva (about 125 million dollars at the official rate). We must mobilize all our workers reserve to drive up production and also the quality of our products. At the same time we must economize in work, money and materials."

Motor Plant Hit by Strike

KENOSHA, Wis. (AP)—A strike hit the American Motors Corp. Tuesday after overnight negotiating talks broke down with no progress reported.

Pickets appeared at the AMC's assembly plant at 3:30 a.m. (PST) and an hour later were advised the strike had begun.

The dispute, over layoff provisions, involves about 5,000 workers at AMC's assembly plant here. But a company spokesman said a strike at Kenosha would force an immediate suspension of operations at the Milwaukee plant where 2,500 workers produce Rambler, Nash and Hudson bodies for assembly here.

Salem-Area Groups Participate In Great Decisions Discussion

Seventeen Salem area groups are taking part in the Great Decisions program which is being sponsored by the U. S. Foreign Policy association and is being aided in Oregon by the state system of higher education.

The main purpose of the program is to stimulate interest among individuals all over the country in foreign policy problems with which the United States is now involved.

This is the way the program works: Each Friday afternoon, a crucial problem in the foreign policy field is presented over radio and television.

Discussion Groups Operate

Small discussion groups, organized in cities around the state, watch and listen to the problem being presented. Then they discuss the problem among themselves in an effort to get a clearer insight as to all the various aspects of the problem. At the conclusion of their meeting they then take a vote as to just what they think the U. S. should do in that particular case.

Sunday was the day for the first meeting. The Salem area groups include a total of approximately 29 individuals at present and they all took part in the initial problem discussion which involved "Russian Imperialism."

The Great Decisions program will continue for eight consecutive weeks with the topic for next Sunday being "U.S. Policy for Europe and Germany."

The various groups in this area are all welcoming new members, according to Alan Berg, general chairman of the program in this part of the Willamette valley. Berg emphasized that it is not too late to join because each week presents an entirely different problem and therefore the newcomer can jump into the activity without having attended the previous meetings.

Anyone interested in the program can get information by calling Mrs. Marvin Nettleton.

Following is a list of the various groups in this vicinity and their chairmen:

Bural groups—Wendell Barnett and Mrs. Evelyn Soya, Brooks; Gervais area, Stewart W. Gates, Fred Scharf and Walter Halveron, Polk county area.

Willamette university—Don Rademaker and Joe V. Stewart.

YWCA—Carl Grider.

YWCA—Gertrude Acheson.

Church groups—Rev. Gerald G. Emerson, First Presbyterian; Mrs. Cecil Monk, First Methodist; Adriano Artiano, J. B. Avison, Marvin Nettleton and Darold Elkins, First Congregational.

AAU—Mrs. Dennis Patch.

Salem—Delbert McDonough.

Pair to Appear On Dangerous Weapons Count

Two Salem men are scheduled to appear in Marion county district court Wednesday for arraignment on the charges involving dangerous weapons.

Fred Albert Henderson, 960 Broadway, and Raymond George Reeves, 215 S. Winter St., were taken to court Monday and were given until Wednesday to consult attorneys. Bail was set at \$1,000 on each.

Henderson is charged with assault with a dangerous weapon. He is accused of using a knife on Dwight Junior Crowder, 1946 North Commercial St., in an altercation at the home of Henderson's parents last week. Crowder signed the complaint against Henderson. He was not seriously injured.

Reeves is charged with carrying a concealed weapon. He was arrested early Sunday morning after a gun was found under the seat of his car. He was being sought by police at the time because of threats he reportedly had made against his ex-wife.

Work Done on South Liberty

The task of reducing traffic hazards encountered by children walking to school along South Liberty road is approximately half completed, John Anderson county engineer, told the county commissioners Tuesday.

Anderson said the work was progressing well when weather caused a temporary postponement of activities.

The engineer reported that a petition asking for a widening of South Liberty road and Ewald avenue intersection would be in abeyance until the shoulders there have been widened.

The petitioners said that a traffic hazard existed because of the right angle turns, similar to those that exist within the City of Salem. It was suggested that a power pole and a fire hydrant be moved to permit a broader turning radius. However, the engineer said he did not believe this was advisable.

Nationalist army headquarters said one of the civilians, angered because soldiers would not let him take a large unexploded shell, hurled it to the ground. The shell blew up, detonating seven other big shells three soldiers were removing from the field.

Local Paragraphs

In Fair Condition—Seven-month-old Michael D. Jones, son of Mr. and Mrs. Glen Jones, Rt. 1, Brooks, was reported in fair condition Tuesday at Salem General hospital. The baby suffered third-degree burns of both legs when bedding in his crib caught fire Sunday at the home. Cause of the fire was unknown, Brooks firemen said.

Driver Arrested—Lawrence Clinton Gardner, 143 Eighth St., pleaded innocent Tuesday in municipal court to a charge of driving while intoxicated. The arrest was made about 6 p.m. Monday on Wallace road by city police. Trial is set for February 8. Bail is \$250.

Gas Taken—The theft of several gallons of gas from a truck of the West Salem Fuel Co. was reported to city police Monday.

Firemen Called—City firemen were called to the Dwight Quisenberry home, 335 Jervis St., Monday when fire flared up in a trash can. Hot ashes in the can were blamed for the blaze.

Spare Taken—The theft of the spare tire and wheel from her car sometime over the weekend was reported to city police Monday by Dorothy McAdams, 900 North 13th St. The car was parked in the 400 block of Tryon avenue when the theft occurred, she said.

9 More Die of Blast Wounds

TAIPEI (AP)—Nine more persons have died of injuries from a shell explosion at an artillery range Sunday in central Formosa. Twenty-seven persons were killed outright. Most of the dead were civilians collecting shell fragments to sell as scrap metal after a firing practice.

Nationalist army headquarters said one of the civilians, angered because soldiers would not let him take a large unexploded shell, hurled it to the ground. The shell blew up, detonating seven other big shells three soldiers were removing from the field.
