

Bodies of Slain Chicago Sisters Found in Woods

Police Free 1 Suspect, Quiz 2nd

By BERNARD GAVNER

CHICAGO (AP)—Discovery of the bodies, frozen bodies of the missing Grimes sisters set police on a full-scale search today with the hope a solution may also be found to the unexplained slayings of three boys.

Authorities quickly noted similarities in the slayings of the girls—Barbara Grimes, 15, and Patricia, 15—and the three school-boys whose bodies were found 15 months ago, nude and strangled in a wooded area.

Police picked up two men for questioning. Both denied any knowledge of the slayings. One man was released. The second, identified by police as Walter Krantz, 51, a laborer, was held for further interrogation. Police said he had been questioned last week about the girls' disappearance and released.

The girls' bodies were found along a little-traveled country road southwest of Chicago. They had left home the night of Dec. 28 to see an Elvis Presley movie.

There had been numerous reports they were seen in the city or en route to Nashville to meet Presley. Police had been inclined to conclude the girls were runaways.

They, another sister and two brothers lived with their mother. Their mother, Mrs. Loretta Grimes, 48, insisted throughout that the girls met with foul play. Her divorced husband, Joseph, also 48, a truck driver, reflected frustration and bitterness when he came to the country road and looked at the bodies.

"That's Barbara," he said. Then his body seemed to go slack and he wept bitterly.

Helped by two policemen who walked him from the roadside, he cried: "I told them (police) the girls wouldn't run away. Why in the hell wouldn't they listen?"

Sheriff Joseph Lohman said the bodies may have been placed along the German Church Road, near Willow Springs, as long as two weeks ago. A heavy snow Jan. 9-10 apparently hid them. A rain and thaw Monday removed the snow. The bodies, lying about 10 feet from the road, were found by a motorist.

Barbara's chest bore three marks which Lohman and coroner's officials said could have been inflicted by a small-caliber rifle or an ice pick. No clothing was found just as in the case of the slaying of the three boys.

The cause of death must await findings by a team of three pathologists who will begin detailed examination today.

Police said the three marks on Barbara's chest raised another similarity between the Grimes girls slayings and the brutal murder of the three boys in October 1955.

The bodies of the boys—Robert Peterson, 14, John Schuster, 13, and his brother Anton, 11—showed markings which police said may have been inflicted by a pronged tool. Their bodies were tossed into Robinson Woods northwest of Chicago, about 20 miles from the scene of yesterday's discovery.

Police said Krantz was picked up last week after they had received a mysterious telephone call in which a man said that if the Grimes girls were to be found, police should search Santa Fe Park. This park is about a mile and a half from where the bodies were found. Krantz was seized at his home yesterday and again he steadfastly denied any connection with the slayings.

Largest iron ore mine in the world, 1535 acres on top side, is at Hibbing, Minn.

A Mother Bereaved

CHICAGO—Mrs. Loretta Grimes buries her face in her hands, weeping at the news that her two daughters, missing since Dec. 28, were found slain, their bodies dumped by a roadside. A little neighbor child walks away, wiping her eyes. The bodies of Barbara, 15, and Patricia, 15, were discovered yesterday southwest of the city. (AP Wirephoto)

Army to Install Nike With 50-Mile Range

Hercules to Take Place of Ajax in Cities

By P. D. ELDRID

FORT BAKER, Calif. (AP)—The Army will soon have in operation a Nike guided missile capable of knocking down a hostile plane 50 miles off the coast.

The Nike Ajax, a 25-mile-range missile supplied antiaircraft batteries guarding vital American cities, is being replaced by the bigger, more lethal Nike Hercules, with approximately twice the range.

Described as able to destroy any present supersonic planes, Hercules is controlled by an improved electronic "brain."

Known as the missile master system, this brain collects target information by radar, feeds it through an intricate computer and electronically locks onto the missile, directs it to the intruding plane.

A direct hit is not necessary to destroy a plane, Nike experts say, because of the terrific blast and fragmentation.

The missile master system, now in production by the Glenn L. Martin Co., is operational already at Ft. Meade, Md., where a pilot model is in service at defense batteries guarding the Washington-Baltimore area.

Nike defenses today guard many of the key centers. In a broad sweep north from Washington through New England, across the industrial Midwest to the industrial complex around Hanford, Wash., the Nike defenses reach out to Seattle and down the Pacific Coast as far as Los Angeles. The Army plans to similarly protect San Diego soon.

New York, Boston, Pittsburgh, Buffalo-Niagara, Chicago-St. Louis, Detroit, Cleveland, Milwaukee, Seattle, San Francisco and Los Angeles are among the cities where Ajax will be replaced by Hercules.

Nike, named after the Greek winged goddess of victory, actually is a family of weapons. The Army is developing other missiles, such as Zeus, with probably greater range.

Britain Icy to Yemen Bid for Peace Parley's

Language of Reply on Cease-Fire Called Propaganda

LONDON (AP)—The British Foreign Office has expressed doubt about accepting Yemen's bid for a cease-fire talks as a move toward settling border troubles in the Aden protectorate area. It said Yemen's acceptance appeared to be a propaganda gesture.

Yemen told Britain in a note it "does not object" to entering talks "if the purpose is the cease-fire in both free Yemen and occupied Yemen and as a preliminary step, resulting in negotiations toward solving the whole problem."

The Foreign Office objected to the use of the term "occupied Yemen." It said in a statement: "If the term 'occupied Yemen' is supposed to refer to the Aden protectorate, we cannot accept it in any way. The phrase appears to have been used for propaganda purposes."

The Aden protectorate, in the southwest portion of the Arabian Peninsula, is administered by Britain under treaties with the local sultans. Yemen long has claimed western Aden. Isolated fighting has occurred frequently in the wild frontier region. In recent weeks, both Yemen and Britain accused the other of stepping up hostilities.

Britain offered Jan. 14 to begin peace talks. Sultans of the various tribal units in the Aden protectorate agreed provided Yemeni troops withdraw from Aden territories.

Yemen did not comment on the condition set by the sultans. The note to Britain mentioned only a meeting "between officers from both parties."

Much of the trouble in the past has stemmed from the poorly defined borders in the rugged region.

There would be a cease-fire at once, the Foreign Office statement said, if "Yemen ceased to raid into the protectorate and ceased to supply protectorate dissidents with arms and supplies."

The dictionary defines paranoia as a mental disorder characterized by "delusions of persecution and of one's own greatness."

In terms of George Metesky, a "textbook case," Dr. James A. Brussel, assistant commissioner of the state Department of Mental Hygiene, noted that it had been possible to predict months in advance what type of man would be found.

These predictions were based on the actions of the man in planting 32 bombs in the city and on his anonymous notes expressing rancor against the Consolidated Edison Co.

Brussel had described the then unknown bomber as single, a lone wolf, neat in appearance, well proportioned physically, an immigrant or first generation American, highly religious, and disinterested in women.

Police said Metesky, arrested this week, fitted that description. Dr. M. Ralph Kaufman, chief psychiatrist at Mt. Sinai Hospital, told an interviewer that, as paranoia spreads, any two objects that have anything in common, regardless of how illogical, become equal in the mind.

Thus, he said, a feeling that one is being persecuted by a foreman can spread to the foreman's company, to anybody served by the company and to the whole world.

The bomber originally planted bombs on Consolidated Edison premises but later planted them in such apparently unrelated projects as railroad stations and theaters.

WHEAT MAN IN SEOUL. SEUL, Korea (AP)—Joe Spiruata, Far East representative of the Oregon Wheat Growers' League, arrived Wednesday to work on a market development project for U. S. grain in Korea.

BATTLE CREEK, Mich. (AP)—Edwin B. Douglas, 68, brother of U. S. Supreme Court Justice William O. Douglas, died at his home here Tuesday.

Douglas was plumbing inspector for the city of Battle Creek and had lived here 35 years. His father, Harold Douglas, was U. S. consul in Toronto when World War I began. Edwin served in the Canadian Army during the war.

PLANE DELAYED. Benson Misses Las Vegas Date

WASHINGTON (AP)—Secretary of Agriculture Benson missed a speech-making date with the National Wool Growers Assn. in Las Vegas, Nev., Wednesday because of plane connection trouble.

Benson's office here reported he was trying to arrange transportation so he could make the speech Thursday.

Aides said that if Benson is unable to make the trip, the speech may be read to the convention by Benson else.

Benson had arranged to fly to Las Vegas late Tuesday, but his flight was canceled because the airport at Chicago, where he was to make connections, was weathered in.

Tennis was introduced in the United States by way of the Staten Island Cricket Club about 1874.

'Bomber' Said To Be Classic Paranoia Case

NEW YORK (AP)—What made the "Mad Bomber" tick?

To psychiatrists the answer appears simple. One described him Wednesday as a "classic textbook case of paranoia."

The dictionary defines paranoia as a mental disorder characterized by "delusions of persecution and of one's own greatness."

In terms of George Metesky, a "textbook case," Dr. James A. Brussel, assistant commissioner of the state Department of Mental Hygiene, noted that it had been possible to predict months in advance what type of man would be found.

These predictions were based on the actions of the man in planting 32 bombs in the city and on his anonymous notes expressing rancor against the Consolidated Edison Co.

Brussel had described the then unknown bomber as single, a lone wolf, neat in appearance, well proportioned physically, an immigrant or first generation American, highly religious, and disinterested in women.

Police said Metesky, arrested this week, fitted that description. Dr. M. Ralph Kaufman, chief psychiatrist at Mt. Sinai Hospital, told an interviewer that, as paranoia spreads, any two objects that have anything in common, regardless of how illogical, become equal in the mind.

Thus, he said, a feeling that one is being persecuted by a foreman can spread to the foreman's company, to anybody served by the company and to the whole world.

'Mad Bomber' Sorry Only About Injuries

NEW YORK (AP)—George Metesky—the Mad Bomber—was in Bellevue Hospital today awaiting psychiatric examination. His 16-year reign of terror was at an end.

The court order committing the 34-year-old bachelor came less than 24 hours after police arrested him at his Waterbury, Conn., home.

"I'm glad I did it," Metesky said with a smile late yesterday as he was brought from Waterbury to New York City for arraignment.

A crowd of 300 persons, including some 150 newspaper, television and radio representatives, watched Metesky climb out of a police car caravan. He was handcuffed between two detectives.

The smile never left his face. He appeared to enjoy immensely the fuss being made over him.

"Are you sorry you did it?" someone shouted.

"Metesky's blue eyes twinkled. "Yes," he laughed, adding, "I'm sorry I injured people, but I'm glad I did it."

After his arrest, Metesky signed a statement admitting he was the Bomber who had planted 32 bombs in public places since 1940. Twenty-two exploded, injuring 15 persons, one serious.

The tall, balding Metesky was quoted as saying he never had intended to kill anyone and felt "hurt" whenever he read one of his devices had injured anyone.

He unionized his bomb planting campaign, he said, to point up what in him was lack of competence for an industrial injury 25 years ago.

He was taken to court on charges of felonious assault, malicious mischief and violation of the Sullivan Law, meaning the possession of dangerous weapons such as bombs. Bond of \$100,000 was set. He had voluntarily

waived extradition from Connecticut.

The three counts could carry a maximum sentence of 42 years but could easily stretch into several life terms if he is tried and convicted separately for each of the 32 bomb plantings he admits.

Paris Deputies Okay Economic Welding Move

PARIS (AP)—The French National Assembly early today endorsed France's participation in negotiations to weld Western Europe into a single economic unit.

A resolution adopted 321-210 approved the general outlines of the European common-market plan and the proposed European free-trade zone. It expressed confidence in premier Guy Mollet to carry through negotiations on both ideas.

The common-market plan is an attempt to erase customs barriers and trade quotas among France, West Germany, Italy, Belgium, the Netherlands and Luxembourg, and to unify their tariff walls against the products of other countries.

The six nations already have unified their coal and steel industries under the Schuman Plan and are negotiating a similar arrangement for the development of atomic power for peaceful purposes.

Foreign ministers of the six nations will meet in Brussels Saturday to discuss a common-market treaty. It is expected to be signed late this month.

River Days Seen as Four, Five Day Event

Hullette Named New President Of Board

Expansion of the Willamette River Days of July celebration into a four or five day event isoposed as a definite possibility Wednesday.

Discussion of changing the annual program into a longer festival was held at a meeting of the board of directors Tuesday night. Some other tentative plans were discussed at the meeting and new officers were elected with 24 of the 37 members representing 34 Salem clubs and organizations in attendance.

Hullette Named. Robert Hullette, vice president of the board, was elected as new president of the board. He was vice-president last year. Other officers elected were—Robert Byers, 2030 club, vice president; Mrs. William Ferguson, Salem Junior Woman's club, secretary; and Don Wells, Exchange club, treasurer.

Hullette said Wednesday morning that nothing definite was decided about making the event longer but that the idea was being given careful consideration. It was suggested at the meeting that a longer event would make it possible to have a river barge pageant.

Hullette said that two Buffalo Club members have received from South Dakota. They will be kept in most storage for the time being and will be used for sand-which at this year's celebration.

Also at the Tuesday meeting the announcement of a \$1,000 gift for improvement of Wallace Marine park in connection with Willamette River Days was made. The money was donated by the Salem Junior Woman's club.
