

Homemaker

AMITY—Ilene Goffena, Amity high school student, who won first place in Amity homemaking contest. She will now compete for state honors.

Amity School Picks Champ Homemaker

Youngest Senior in Class Enters Finals

AMITY (Special)—The Betty Crocker Homemaker of Tomorrow in Amity is 16-year-old Ilene Goffena, the youngest senior at Amity high school.

On Dec. 4, the annual General Mills sponsored written examination on homemaking knowledge and attitude was given to all senior girls. Ilene received the highest score, now her examination paper will be entered in competition to name this state's candidate, for the title of All-American Homemaker of Tomorrow.

For Ilene's achievement so far she will receive an award pin designed by Trifari of New York.

Ilene's interest in homemaking is not of recent origin, she has been active in 4-H activities since she was nine, winning a first prize for her sewing that year in the Yamhill County Fair. She has taken home economics all four years in high school and this year is secretary to the Future Homemakers of America club at Amity high school.

Her hobbies are the making of fancy pies and cakes, with crocheting and embroidering running a close second, the latter an achievement in itself, because Ilene is left-handed and to learn fancy work she had to master it right handed.

Despite her interest in homemaking, Ilene is not a stay-at-home, she has been a "Song Queen" for Amity in both her junior and senior years, also an active member in GAA and the Pep Club.

Ilene is the daughter of Mr. and Mrs. Norval Goffena of Rt. No. 1 Amity. She has two brothers and two sisters. Her mother, Mrs. Lillian Goffena is vice-president of the Amity Home Extension Unit.

Ilene plans to continue her home economics after graduation from Amity high school, with a course in commercial home economics at Oregon State College.

Industry Near Tribes Sought

WASHINGTON (AP)—Legislation to set up a 200-million dollar program to induce industry to locate on or near Indian reservations to provide employment for Indians was introduced Wednesday by Sen. Langer (R-ND) and 18 other senators.

The secretary of the interior would be authorized to:

1. Make loans or grants to Indian tribes for establishment of tribal enterprises.
2. Make or guarantee loans to individual Indians for establishment of enterprises.
3. Make or guarantee loans to non-Indians to establish industries on or near reservations.
4. Furnish Indian tribes or individuals technical information and assistance to enable them to set up and operate enterprises.

One of the failings in the past in the administration of Indian affairs, Langer told the Senate, has been the inability to provide consistent and suitable employment to the Indian people.

Californian on Way to Isles to Escape Crowds

SACRAMENTO, Calif. (AP)—"California is getting too darned crowded," complained Herbert E. Kurtz, 45-year-old civil engineer, as he headed for San Francisco today to stow 1,000 pounds of gear on a Tahiti-bound ship.

He said he plans to find a Pacific island, grow vegetables and lake life easy.

He said he would sail Jan. 30 on the New Zealand ship Waitomo.

His plans call for negotiating with the French government for the purchase or lease of an island in the Tuamotu Archipelago, about 500 miles northeast of Tahiti.

Mrs. Kurtz plans to follow next year if everything works out.

How come a landlubber like Kurtz—presently on leave from the U.S. Forest Service—is going to sea?

"Just look at the traffic. This is a ratrace," he said.
