

### 2 'Unknowns' To Be Buried At Arlington

WASHINGTON (AP)—Plans were announced today for selecting two "Unknown Americans" who fell in World War II and in Korea for burial beside their World War I comrades in Arlington National Cemetery.

The Army, Navy and Air Force will share in a ceremonial selection, with re-interment scheduled for Memorial Day, May 30, 1958. Selections will be made by May 15 next year.

The Unknown Soldier of World War I has rested at Arlington since Nov. 11, 1921. Modifications in his white tomb to accommodate two additional crypts are being discussed.

The department said there will be two preliminary selections for the Unknown American of World War II, who may be a soldier, sailor, Marine, airman or Coast Guardsman. One will be chosen from among the graves of men killed in the Pacific, the other in Europe. One of these two then will be picked for reburial.

The unknown of the Korean conflict will be selected from those buried at the national cemetery in Honolulu, Hawaii.

### Janitor Finds Stolen Papers

CHICAGO (AP)—A janitor cleaning an apartment building basement yesterday found "secret government documents" which the FBI said were stolen from a physicist en route to a South Bend, Ind., guided missile plant.

Donald S. Hostetter, Chicago FBI chief, said the discovery was reported by Edward A. Merk, janitor for a building located on the city's south side.

Hostetter described the documents as "mostly classified secrets." He said they apparently "were discarded by a thief and are intact as far as we are able to determine."

Dr. Fletcher C. Paddison, physicist at Johns Hopkins University, Wednesday reported theft of a briefcase containing the documents to the FBI and police. Paddison, of Bethesda, Md., said the briefcase was taken while he was making a telephone call from the Illinois Central 63rd Street station. The station is a few blocks from where the papers were found.

The briefcase, Hostetter said, was not found.

### 'Israel's Here To Stay,' Said Ike's Statement

CAIRO, Egypt (AP)—The Washington correspondent of the newspaper Al Ahran reported Monday that President Eisenhower told King Saud during their talks Israel "is here to stay."

The correspondent said the President added that "the United States will not stand idle and see Israel disappear, and the Arabs have to know that clearly."

The correspondent wrote that Eisenhower also told Saud the United States will not, however, permit Israel to expand or to commit more "injustices" against the Arabs and promised to help the Arabs against any unfair Israeli policy.

### Gresham Crash Claims One Life

GRESHAM (AP)—A two-car collision here Saturday claimed the life of James Clayton Almond, 50. His wife, Mary, 46, was critically injured.

Police said they were thrown from their car when it collided with one driven by Arland Barker, Portland. Barker and his wife suffered minor injuries in the crash.

### Elks Club Safe Robbed of \$1,230

SWEET HOME (AP)—Elks Club officials here reported that a burglar stole \$1,230 after breaking into the club's safe early Sunday.

He entered the building through a rear window and then got into the safe by knocking off the combination knob. Police Chief Roy Clover reported.

### Balmy in Paris

PARIS (UP)—The Paris Weather Bureau said today that Sunday's high of 64 degrees was the warmest Feb. 3 in history. Thousands of Parisians enjoyed the sunshine in the city parks and rowed boats on ponds that were used for ice skating this time a year ago.

### Men Over 50 Need to Double Total of Amino Acid in Diet

By RENNIE TAYLOR  
CARMEL, Calif. (AP)—An experiment showing that men over 50 years of age cannot get enough nourishment out of a diet which is adequate for younger males was reported today.

Some of the older men in the test required almost twice the amount of essential amino acids as do younger men, said a research team from the Los Angeles Veterans Administration center and the University of California at Los Angeles.

### West Europe Asks Backing For A-Power

WASHINGTON (AP)—A combine of Western European countries will ask the United States this week to back the development of a huge atomic power industry in Europe.

These nations want American materials and know-how for their own development, even though the United States now has no such industry of its own.

A group of top flight scientists and economists led by three representatives of the combine, began talks Monday with the Atomic Energy Commission, the State Department and other government agencies.

One obvious aim of the project is to make Western Europe less dependent in future on Middle Eastern oil, and it is partly on that basis that United States aid is being asked.

The European proposal is sponsored by six countries which are organizing themselves into an atomic pool, called "Euratom." They are Belgium, France, West Germany, Italy, Luxembourg and The Netherlands. A committee of three experts, assigned to study the problems in detail, arrived here during the weekend.

### Hungary Lets Colleges Open

BUDAPEST (AP)—The universities and colleges of Budapest, breeding ground of the October anti-Communist revolt, reopened quietly Monday. Communist police in a series of raids had arrested "counter-revolutionary" students and seized hidden stores of weapons in dormitories and basements.

The reopening was accompanied by a warning from Gyula Kalai, member of the Communist Party's Executive Committee, that "every attempt by counter-revolutionary students or teachers to disturb the restoration of order will be ruthlessly smashed."

POLL BURIES IKE PLAN  
CAIRO (UP)—The newspaper El Shaab said today a poll on President Eisenhower's proposed Middle East doctrine showed three persons in favor and 68,342 against it.
