

### Girls Excell On Honor Roll At Silverton

### Exchange Student Has High Mark for Semester

SILVERTON (Special) — Out of 497 students attending the Silverton Union High school, three boys made the semester honor roll in the senior class. These were the exchange student from Norway, Tarr Strom, Dale Schulte and Wade Henson.

Only 114 students made the honor roll.

Freshmen girls totaled a 26 per cent high for honor mention. Junior class girls came in second in the race with 19 per cent high. Senior girls made up for the total class honors with a 14 per cent honor roll; sophomore girls with a 12 percentage.

Here the per cent of honor dropped to a "point" scale.

Freshmen and junior boys rated .9 per cent; sophomore boys, .8 per cent; and the seniors boys, .3.

Only two students, a boy and a girl, rated straight "1's." Loree King, a sophomore, and Merle Anderson, sophomore boy. This was for the six-weeks period, the figures gleaned from the reports released in the February edition of "Fox's Howl," school publication.

### FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plates dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate color" (discoloration). Get FASTEETH at any drug counter.

**Announcing OLDSMOBILE'S NEW J ROCKET!**

**It's the most exciting engine development since the first Rocket was launched!**

Engineers have dreamed for years of an engine that combined exceptional horsepower and torque potential with outstanding fuel economy in normal operation. The first big step towards this goal came from Oldsmobile when the first Rocket Engine ushered in the modern high-compression era.

And today, Olds is ready with the new J-2 Rocket. You'll find that in operation, it's like two engines under the hood!

In your day-to-day driving, you enjoy the smooth, alert action of the Rocket—with the fuel economy of dual-jet carburetion and a 10-to-1 compression ratio. But beyond all this there's a "second stage" in J-2 operation to meet the exceptional driving situation. Just open the accelerator beyond the 3/4 point and two additional carburetors automatically jet into action. There's an instant boost in torque and power. You'll appreciate the immediate response as another Olds contribution to your safety.

Be our guest for a J-2 test now!

TRIPLE-ACTION RESERVE POWER! Nudge the accelerator beyond the 3/4 mark and you "call out the reserves"! The J-2 Rocket then operates on three dual carburetors! J-2 is available now at a modest extra cost. Try it!
