NEW YORK 49 — Industrials made wide gains to lead a stock market rally in lively trading Wednesday. Prices were around their best late Wednesday afternoon.

Volume for the day was estimated at around 2,400,000 shares compared with 2,550,000 Tuesday.

Key stocks were up fractions to 3 or more points.

The market made good an extensive, though partial recovery from the beating it took in Monday's climactic break and the continued sell-off Tuesday.

A technical rally was expected after the Monday drop. A rallying attempt was abortive Tuesday without any outstanding news to fuel it. Brokers said that the low levels of the present prices were attractive to many buyers.
