

### Huge Georgia-Pacific Project Rises

One of the largest industrial plants now rising in Oregon is the Georgia-Pacific pulp mill at Toledo, pictured above. The plant is to cost \$40,000,000 and will be completed in 1958. About 150 men are now working on the job with 1,000 planned at the peak of construction. (Capital Journal Photo).

## U.S. Jets Pack Atomic Punch

By ELTON C. FAY  
WASHINGTON — Atomic rockets for blasting enemy bombers out of the sky are now being issued to interceptor planes of the air defense command within the United States.

Suddenly breaking a well-kept secret, Secretary of Defense Charles E. Wilson Wednesday revealed this in a statement which also said that the same nuclear punch will be incorporated into surface-to-air defense.

This will include the Army's Nike-Hercules antiaircraft missile and the Talos, a missile developed by the Navy which the Air Force has proposed to adopt.

The fact that nuclear missiles already are out of the experimental stage and going into the hands of airmen represents the greatest advance in aerial defense since World War II and the following advent of the atomic and jet aircraft age.

The airborne rockets are being stored "in areas immediately adjacent to the operational units," the Pentagon said, adding that for reasons of military security it would not say precisely where. Obviously, however, this eventually will mean at most of the major bases where air defense command planes are located.

Wilson's statement did not identify the rocket being used as a carrier for the nuclear explosive. It is understood to be of new design and to have actual guided missile features instead of being a mere aimed rocket.

Reports that the rocket is one of the better known missiles, like the Air Force's Falcon, were discounted. There has been speculation published for months that an entirely new plane-to-plane missile, built for an atomic warhead, was far advanced in development. One published report suggested this might be the "Dingdong," a Douglas Aircraft Co. project.

It seems entirely possible that nuclear power as high as 15 or 20 kilotons could be packed in the warhead of a missile. (A kiloton is the equivalent of 1,000 tons of energy released by a conventional TNT explosion). Such force obviously could destroy aircraft at what Wilson called "a considerable distance from the point of burst"—perhaps upward of a half mile.

Representatives of the "first class" shall serve for terms of two years each commencing on the first Monday in January, 1950, and those in the second class will serve for four years commencing on the same date.

This method was devised to insure that one-half of the membership of the house will be elected biennially thereafter.

The measure is sponsored by Senators Warren Gill, (R) Lebanon, Harry Boivin, (D) Klamath Falls, Anthony Yturri, (R) Ontario, (D) Portland.

**Senate Warned It's Exposed to Mumps**

The Oregon Senate was warned Wednesday that it has been exposed to mumps.

Sen. Philip S. Lowry (R), Medford, said his 8-year-old son, John, got the mumps Tuesday.

He told the Senate that since John has been visiting every senator's desk looking for stamps for his collection, each senator should have a shot to find out if he's immune.

John last visited the Senate Friday.

"This isn't funny," Lowry said, "I am told that at one time, this Senate was put out of commission by the mumps."

**CONVICT EDUCATION**

SAN QUENTIN, Calif. (AP)—Twenty-five inmates at the state prison here are enrolled in televised classes in psychology and social science sponsored by San Francisco State College.

Walter Pearson, (D) Portland, Francis Ziegler, (R) Corvallis, Phil Brady, (D) Portland, Jean Lewis, (D) Portland, Ben Musa, (D) The Dalles and G. D. Gleason, (D) Portland.

**PRACTICAL EXPERIENCE**

BARBOURSVILLE, W. Va. (AP)—Volunteer firemen took advantage of an early opportunity to impress their teacher with what they had learned in a West Virginia University extension course on fire-fighting.

They were listening to a lecture by Lt. Robert Myers of the Huntington Fire Dept. when the alarm sounded.

After the blaze at a restaurant was extinguished, Myers said his "students" did an excellent job.

**LEAKAGE**

DURANT, Okla. (AP)—A woman called the Durant Electric Co. office and complained her bill was too high.

The company checked her meter and wiring and reported nothing wrong.

Two days later, the woman called to apologize, announcing she had discovered the trouble—"I found a socket without a light bulb in it and the electricity must have leaked there."

**STORE HOURS**  
MONDAY: 12 NOON TO 9 P.M.  
FRIDAY: 10 A.M. TO 9 P.M.  
OTHER DAYS: 9:30 A.M. TO 5:30 P.M.
