facilities that are available to Guardsmen, their families and friends. There's a lot to learn about the educational opportunities that qualify Guardsmen for better paying civilian jobs. Talk to your buddies about the extra money they make for the time spent in training. You'll notice that a lat of them are wearing chevrons, advancing in rank as high as interest, ability and experience can take them.

All these advantages and opportunities are available to you if you join your buddies in the National Guard. It's the opportunity of a lifetime. Make sure you make the open house at the armory . . . and insure your future by joining your hometown National Guard.
