Won't Share Tells

The Egyptian position on the future operation of the Suez Canal was kept secret, although Nasser already has announced that all tolls must be paid to Egypt and not shared with any international agency as suggested by the West. The new Egyptian memorandum is believed to re-emphasize this stand. One report said it also stated that Egypt will insist that all ships obey Egypt's laws and regulations governing use of the canal and that Egypt will brook no interference from any nation in operating the waterway.
