

West Oregon Farming Lags By 1-2 Weeks

Less Than Half Wheat, Oats and Quarter of Barley Planted

THE ASSOCIATED PRESS
Rainy, cool weather has delayed spring field work throughout Oregon, and the farming timetable is running from one to two weeks behind normal west of the Cascades, the U. S. Department of Agriculture said Thursday.
Less than half the spring wheat and oats, and less than a quarter of the spring barley, has been planted in western Oregon. Parts of the area received as much as two inches of rain in the week ending April 19.

The weather, however, was favorable for such established crops as hay, fall seeded grains, fruits, berries and seed crops, the department said.

Pear trees are past the full-bloom stage in southern Oregon, and are peach, cherry and prune trees west of the Cascades. Most apple trees have attained about three-fourths of their bloom.

More than 90 per cent of the spring wheat and barley plantings have been completed in the Columbia Basin counties, but only one-fourth to one-half of the spring grain has been put into the ground in Baker and Union counties.

Spring grain plantings have gotten under way in Klamath, Lake and Harney counties. Wind damage to some sugar beet acreage necessitated replanting in Malheur County.

U.S. Business On Upgrade in First Quarter

WASHINGTON (AP) — Business was on the upgrade during the first three months of this year, with personal income, sales and employment all at high levels.

The Commerce Department's quarterly "Survey of Current Business" was made public yesterday, and it gave this picture:

Personal income — Reached an annual rate of 337½ billion dollars in March, up four billions from the last quarter of 1956 and up 19 billions from March a year ago.

Sales — On seasonally adjusted basis, manufacturing and trade sales totaled 56½ billion dollars in both January and February—a rise of one billion dollars over the final quarter of last year. A slight drop in retail sales was reported during March.

Employment — Hit a new high for March last month. Nonfarm employment was bigger by about one million than the figure a year ago.

The report also said wages were rising and that consumer spending rose to a new record rate. This led to a sharp drop in the rate at which business inventories were accumulating.

Pay and Price Controls Eyed By O'Mahoney

WASHINGTON (AP) — Sen. O'Mahoney (D-Wyo.) said Thursday Congress may have to consider temporary wage-price controls unless President Eisenhower's administration finds some other solution for inflation.

O'Mahoney told a reporter that as long as "the administration is unwilling to do anything about this inflationary spiral we're having, the cost of living is going to keep on going up."

His comments were prompted by new government data Tuesday showing that living costs rose again in March to a new record level for the seventh straight month. The government's index for March, at 118.9 per cent of the 1947-49 base period, was 37 per cent higher than a year earlier.

O'Mahoney, a member of the Senate-House Economic Committee, said the administration's "tight money" policies, imposed by the Federal Reserve Board in the form of high interest rates, have been ineffective in curbing inflation. It has only meant, he said, that citizens have to pay more for money they borrow and greater taxes for interest on the government debt.

Californians Buy McCartie Ranch In Klamath Area

BONANZA, Ore. (AP) — The McCartie Ranch in nearby Langell Valley has been sold by Mrs. Verry McCartie to Mr. and Mrs. Harold Williams of Chico, Calif., it was disclosed Wednesday.

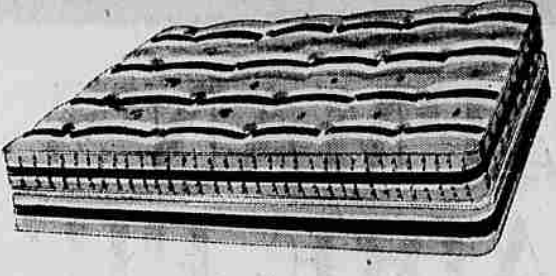

Williams said he will move 2,000 head of sheep to the ranch from California early in May. In addition to some 1,000 acres of land on the ranch, Williams gets an allotment on Taylor grazing lands. Mrs. McCartie and her husband, who died last fall, came to this small ranch community east of Klamath Falls in 1918.

Sale price of the ranch was not disclosed.

Dick Heads WACUBC VICTORIA, B.C. (AP) — Kene A. Dick, comptroller of the University of Idaho, was elected president Tuesday of the West Assn. of College and University Business Offices.
