

Kremlin Acts With Restraint Toward Jordan

MOSCOW (AP) — The Kremlin is acting with restraint toward the situation in Jordan. The chances are this is part of Moscow's current campaign of peaceful coexistence with the West.

There is little doubt that the Soviet leadership is disturbed and unhappy about the turn of events in Jordan in the last couple of weeks, especially after the gains pro-Soviet elements appeared to be making there.

Moscow has stepped into similar situations in the past with declarations, propositions and ultimatums. In the past it has not been hesitant to suggest that Soviet "volunteers" might want to rally against imperialists, as it did during the Suez crisis last fall.

But thus far in the Jordan crisis, only a vast silence has emanated from the Kremlin along this line. The official press has not even carried a full-fledged editorial on the subject.

All the papers have done is to carry a selection of press reports from Damascus, Cairo and other points, all carefully culled to demonstrate the anti-Western point of view. But in the communist way of doing things these republished press reports are strictly an unofficial reflection and do not commit the Soviet government in any way.

There are Westerners here who believe the reason for the Kremlin's restraint up to now is that a Moscow blast at this moment would strike a sour note in the current chorus of peaceful coexistence aimed at the West—Britain, in particular.

Still, a thunderous statement on Jordan cannot be ruled out and the Western colony here includes some who believe one is coming within the next few days.

Ways, Means Committee Okays Budget for Higher Education

A budget of \$44,216,386 for the Board of Higher Education for the 1957-59 biennium was approved and sent to the house by the Joint Ways and Means committee Friday.

The sum approved is approximately \$8 million higher than the figure in the budget but Sen. Jean Lewis, chairman of the subcommittee which handled the budget, said that proposed repeal of 2.4 mill property tax levy, which has been offset by income tax funds, brings about a loss of \$8 million. By eliminating the millage tax, all funds for higher education will come from the general fund.

Cut Restored
Under the bill given committee approval a total of \$1,346,000 for academic salary increases, cut out of the Smith budget, was restored.

Sen. Lewis told the committee that, as a result, a 20 per cent increase can be given to all members of the academic staff, and if vacancies in the staff are not filled, this increase could go up to 25 per cent.

The subcommittee also restored \$50,000 for a lower Willamette Valley Experiment station and like sum for additions to the Union Experimental station.

To augment the required appropriation, the committee insisted upon an increase in student fees to \$6 for resident students and \$11 for non-resident students each quarter.

Library Plan Approved
Despite determined opposition on the part of Rep. Robert Duncan (D), Medford, the committee approved \$154,078 for library services in rural areas. This sum will be augmented by \$180,000 of federal funds in 1958 and \$76,000 in the following year.

Duncan declared that all budgets dealing with education presented to the committee were higher than the sum granted two years ago.

"I have talked to people in my district and found no demand for this service,"

Sen. Lewis said that the committee heard from many people from rural areas, including the Medford area where Duncan hails from, and all urged that the rural library services were needed.

Court Budget Approved
A budget for the Oregon Supreme court of \$446,365 was approved. The court had requested \$452,565. However, the committee added \$2,532.20 to the budget for the supreme court library, to provide for a salary increase for the librarian, bringing this budget to \$74,107.57 for a two-year period.

An appropriation of \$150,000 to be used in purchasing property between Capitol Court, Chemeketa and 12th streets for parking purposes, was approved by the committee. Secretary of State Mark Hatfield had requested \$300,000, but the committee felt that half this amount would be sufficient to begin the project, intended to furnish off-street parking for state employees. A fee will be charged for the parking privileges.

WE ALL HAVE OUR DREAMS

Yes, we all have our dreams. Perhaps sometimes, they are mere projections of our selfishness . . . hopes unfair to others . . . ambitions dangerous to ourselves. But often, they are healthy, honest aspirations . . . opportunities which zeal deserves . . . victories which justice demands. Is it wrong to dream such dreams? Does God frown on honest hope and love? Of course not! Rather, God has given us minds able to dream, and souls courageous enough to seek the difficult—even the impossible. But the Divine Architect helps man to model his castles in the air, and provides the tools for their building. With faith and the guidance of the Church a man may realize hopes and aims which a cynical world calls futile.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
