

### Ike's Advisers See Economy Drive Waning

Hope 10 Days With the Home Folks May Have Cooled Off Solons

By JACK BELL

WASHINGTON (AP)—President Eisenhower's advisers were represented as hoping today that 10 days with the folks at home may have cooled somewhat the economy ardor of members of Congress.

Ending its Easter vacation, Congress goes back to work officially with most of Eisenhower's legislative program stalled. Eisenhower has been urged to take personal command of efforts to get it moving.

But whether there is any breakthrough seems likely to depend largely on just how intent Congress is on paring down the President's \$71,800,000,000 spending budget.

Some of Eisenhower's close associates feel the drive to cut this budget has passed its peak. They base this in part, they say, on their belief that voters who want school construction aid, expanded health services, increased housing and development of natural resource projects are beginning to make themselves heard.

The House already has voted to reduce Eisenhower's requests for new money by \$1,141,000,000 in eight annual appropriation bills. The Senate has not yet acted on any of these.

Eisenhower's advisers are resigned to the likelihood that his \$4,400,000,000 foreign aid program will suffer deep reductions, although they said Eisenhower will press for his full program.

In Augusta, Ga., Eisenhower spoke out yesterday against a House cut of 47 million dollars in State Department appropriations, saying it would be "harmful to the United States and the conduct of foreign affairs."

### Father Learns That He Saved Long-Lost Son

LONDON (AP)—Lewis Marks, 68, stumbled across a rain-soaked, unconscious man yesterday in his garden. He learned from police eight hours later it was his son Sidney, whom he had not seen in 20 years.

"I rarely go to that part of the garden, but this time I noticed a loose board in the fence and went to have a looker," said Marks, a retired vaudeville entertainer.

"He could have lain there for days with his mother and me only a few yards away knowing nothing about it. He has been unable to tell us anything as he is still very ill."

Police identified the son, 44, by papers in his wallet. They said he had been working in London recently as an auto salesman. Marks did not explain to reporters the reason for the long separation.

#### NIGHT SPEED LIMIT

DES MOINES, Iowa (UP)—State police today sought clarification of Iowa's new 60 m.p.h. night speed limit.

A law that becomes effective July 4 says the limit will apply from sunset to sunrise. But because of seasonal variations in the hours of light, the attorney general will be asked to give drivers a more exact time during which the law will apply.

### The Story of Contact Lenses

#### Personality Glasses

"Personality glasses" is a term often used in regard to today's modern frames, but now the real thing in personality glasses is offered in contact lenses.

Many a young fellow or girl is left out of sports or social life of some sort by the need for wearing thick heavy glasses; and many a person becomes in-drawn and a "book-worm" because he feels he is different.

Today young people are offered glasses that are nearly invisible, and with them many an inferiority complex has been overcome.

One young teen-ager was so completely changed in personality that her father remarked, "It would have been worth ten times the amount spent in money to see this tremendous personality change in my daughter." A few months ago she had no friends—now the house is filled with young people.
