## Harvey Signs 868 Acres in Bauxite Hunt

### Aluminum Ore Exploration to Start June 1 in Rosedale Area; Land Options Total \$398,000

By FRED ZIMMERMAN  
Capital Journal Writer

Exploration for bauxite, from which aluminum is produced, will begin in the Rosedale area south of Salem about June 1 by Harvey Aluminum Co. it was learned today.

The firm filed 18 options covering approximately 868 acres of land in the area at the county recorder's office here Thursday.

If exercised, the options would involve a total purchase price of \$398,000. Option fee payments ranging from \$100 to \$640 were made by the company. In most cases the options call for a purchase price of \$500 an acre.

For Two Years

The options are for two years and give the company the right to conduct explorations for the general purpose of determining the suitability of mineral and chemical bearing materials of every character and nature; to make excavations by means of test holes, pits, etc.; the right to remove samples; the right to erect, operate and maintain equipment and apparatus.

At the local office of the U. S. Chemical Division of the Harvey concern, A. W. Metzger, plant manager said the options were the first of a number signed a year or more ago. Others will follow.

Arrangements Completed

Metzger said that arrangements have been completed with a firm that will conduct drilling in the area beginning about June 1. "We have virtually all the land we need covered by options," said Metzger. "We will seek bauxitic materials and further operations will hinge on what we find."

A couple of years ago a Canadian firm optioned land in the Rosedale Hills area, conducted drilling operations and then abandoned the field.

Those signing the options and the amount of land involved are: Donald A. and Paula Jo Jones and Leona B. Gookins, Rt. 3, Box 761, 35 acres; Robert T. and Elone I. Nelson, 480 E. Vista Ave., Salem, 40 acres; John C. and Mary B. Kleinschmidt, Rt. 4, Box 584, 50 acres; Floyd E. and Lesta C. Bates, Rt. 4, Box 324, 30 acres.

Paul H. Taylor, Rt. 4, Box 504, 10 acres; George Angel and Forest C. Turner, Rt. 1, Box 187A, Silverton; W. J. and Rossie A. Lindorf, Portland, 53 acres; Thomas E. and Ethel E. Barry, Rt. 4, Box 564, 80 acres.

Rola M. and O. F. Sayles, Rt. 4, Box 354, 30 acres; Gordon McGilchrist, Jr. and Marie McGilchrist, 360 McGilchrist St., 50 acres; Lincoln M. and Mary H. Pfeiffer, 1040 Wilbur St., 20 acres; William J. and Dorothy G. Linfort, 960 Georleone Drive, 72 acres.

Donald and Kathleen Bernards, Rt. 4, Box 558, 150 acres; Forest W. and Orpha L. Cammack, Rt. 4, Box 448, 80 acres.

## Dulles Exhorts Russ to Allow German Unity

BOON, Germany (UP)—Secretary of State John Foster Dulles called on Russia Friday to end the division of Germany "before its injustices become intolerable."

Dulles told the North Atlantic Council of Foreign Ministers the Soviet Union's protestations of peace "indeed ring hollow when they forcibly divide a great people."

He said that both on humanitarian and legal grounds the continued split of the country could not be justified.

The American statesman spoke after West German Foreign Minister Heinrich Von Brentano called upon the 15-nation alliance to support his government's demands for reunification quickly.

Brentano's statement was in part, an effort to bolster Chancellor Konrad Adenauer's political stock for general elections coming up in September.

Von Brentano told the ministers the leader of the Federal German Republic are doing all they can to insure that the Red-ruled people of East Germany take no "imprudent actions" which could only aggravate their misery and lead to terrorism.

## Senate Takes Go-Home Step

The Oregon Senate, on the 110th day of the session, took official notice Friday that the end might not be far away.

The upper house approved a resolution providing for mailing books and other supplies to members' homes. It goes to the House.

Most legislators feel the session will end between May 15 and June 1.

## Foxy Trio Finds New Home in City

Triplet baby foxes line up for a formal portrait with owner, John Bailey, 1285 Parkway Dr., after he found and brought home the pups from a farm field Wednesday. The trio are just beginning to get used to being around people and will soon be as tame as dogs. Bailey hopes to find a home for all three in some kind of zoo. (Capital Journal Photo by Jerry Zuss)

## WHAT TO DO WITH THREE BABY FOXES?

Any Willamette Valley farmer knows that a fox can be a problem.

But for John Bailey, 1285 Parkway Drive, the fox problem has been multiplied by three. He has a trio of baby foxes and doesn't know what to do with them.

Bailey found the cute trio, about six weeks old, on a friend's farm near Riekrick Wednesday evening. The mother apparently had abandoned them. Although they'll bite if teased, Bailey is slowly getting his three new pets tamed down. They live in separate box houses in the back yard and eat dog food.

Bailey hopes he can find a zoo or someone else who will take all three.

"Must Have Sales Tax" Wilhelm said that the House bill "just includes the surtax and makes it a little higher. I am (Continued on Page 5 Column 3)

## STRONGLY OPPOSED

## GOP Senators Won't Block Demo Tax Bill

By PAUL W. HARVEY JR., Associated Press Writer

Republican members of the Senate Taxation Committee strongly opposed Friday the House-approved bill to revise personal income tax rates, but they indicated they would not block its passage in the Senate.

Sen. Walter J. Pearson (D), of Portland, chairman of the committee, said the bill will send the bill to the Senate floor next Tuesday morning. It likely will have the blessing of the committee's four Democrats and opposition of its three Republicans.

At the end of Friday's meeting of the committee, Sen. Rudie Wilhelm (R), Portland, said to Pearson:

"We'll Supply One" "If you get 15 Democrats to support the bill, we'll supply you with one Republican."

This would indicate that the 15-party split in the upper house wouldn't block passage of the bill. The bill repeals the 45 per cent surtax imposed in 1955, but incorporates it into the tax rate structure; increases the \$500 personal exemption to \$600; and changes the 2 per cent withholding tax so that all income taxes would be withheld from salaries.

The three Republican members of the committee—Wilhelm; Philip Lowry, Medford, and Lee Ohmart, Salem—said the income tax is too high, and that the state would have to come to a sales tax in a couple of years.

They said, however, they will make no effort to try to get a sales tax approved this session. In fact, the Democratic-controlled House already has rejected a sales tax.

## McCarthy Death at 47 Shocks Capital; Funeral To Be Monday in Senate

### 4 Exposed to Radioactivity In Texas Lab

### Company Official Says Situation in Hand, No Hazards

HOUSTON, Tex. (UP)—An Atomic Energy Commission representative said yesterday that two and possibly four employees of the laboratory of the M. W. Kellogg Co. here have received radiation contamination.

An official of the New York construction company, W. B. Converse, said, "The situation is under control and there are no hazards."

Converse said he is "reluctant to name the men involved because casual visitors to the homes of these employees might receive secondary exposure to radiation, and we wish to avoid any hysteria on the part of the public."

The AEC said that the company reported the laboratory was severely contaminated March 13 when irradiated pellets of a mixture of compressed iridium 192 and aluminum metal powder were broken while being removed from cans. The laboratory was closed, but is expected to open in two weeks.

The commission said the laboratory was partially decontaminated. It said that two employees were present at the time of the incident and one of them may have inhaled some of the radioactive powder.

"Their exposure to external radiation is not believed to have been large." The men were not hospitalized.

The AEC said: "The investigation to date also indicates that clothing of at least the two employees was contaminated, and was not removed until after the employees arrived home. Some radioactivity was detected in the present home of one employee, and also in a trailer where he lived at the time of the incident."

"Some clothing of other members of his family was found to be slightly radioactive, presumably as a result of being washed along with the employee's clothes."

James Carry, assistant to the president of the firm, said iridium-192 is used in a device that looks for structural weaknesses in such material as steel, pipeline and concrete.

The investigation to date also indicates that clothing of at least the two employees was contaminated, and was not removed until after the employees arrived home. Some radioactivity was detected in the present home of one employee, and also in a trailer where he lived at the time of the incident.

## No European Tear Shed for McCarthy

LONDON (UP)—Western Europe's newspapers shed no tear Friday for Senator Joseph R. McCarthy. The death of the Wisconsin senator renewed the dormant passions that once surged around his name.

British papers nearly all gave the story prominent front-page space and carried bitter editorials on "McCarthyism."

The reports in France were brief. But all papers referred to McCarthy as "The Witch Hunter." The Communist L'Humanite declared the senator "was famous for his relentlessness in using methods against Communism worthy of the inquisition."

"Inquisition" also was used in London's conservative Daily Telegraph.

The pro-Communist Paris Liberation called the senator "the leader of frantic anti-Communism and the grand master of witch hunting."

Austrian papers announced the death with such headlines as "Snooper Senator McCarthy Dies."

A typical British comment came from the Liberal News Chronicle: "He built a monstrous myth and made millions believe it, but like a fool he overplayed it and destroyed both the myth and himself. America was the cleaner by his fall, and is cleaner by his death."

Ellender Eyes Benson Blast As 'Czar' Try

WASHINGTON (UP)—A Democratic critic attacked Secretary of Agriculture Ezra T. Benson today for his blast at the present farm price support program.

Chairman Allen J. Ellender of the Senate Agriculture Committee accused Benson of trying to set himself up as an "agricultural czar."

Benson Thursday tore into the present farm program. He said it is "not working" is costly to taxpayers and is losing markets for farmers. He gave no specific recommendations but said he wanted discretionary authority to set support price levels.

Benson said he had the full backing of President Eisenhower and planned a campaign to convince farmers they'll make more money if Congress empowers him to cut support prices further.

Ellender said he had the full backing of President Eisenhower and planned a campaign to convince farmers they'll make more money if Congress empowers him to cut support prices further.

## Liver Ailment Claims Red Fighter

By HERBERT FOSTER  
United Press Staff Correspondent

WASHINGTON (UP)—Funeral services for Sen. Joseph R. McCarthy will be held at 11 a.m. E.D.T. Monday in the Senate Chamber where he rose to fame and later was condemned by his colleagues.

The Senate services will be preceded by Catholic mass at 9 a.m. at St. Matthews Cathedral, where McCarthy was married in 1953.

Senate to Meet, Adjourn The Senate will meet briefly at noon Monday and adjourn out of respect for McCarthy.

A committee of senators will accompany the body from the Senate Chamber to Appleton, Wis., Monday.

Burial will be in Appleton Tuesday.

The decision to conduct the services in the Senate Chamber was announced after Senate leaders conferred with Mrs. McCarthy.

The Wisconsin Republican died at Bethesda Naval Hospital late Thursday of a little understood liver malady called "acute hepatitis." The immediate cause of death was "acute hepatitis failure" failure of the liver to go on working.

Capital Shocked Death came to the controversial senator, who made hosts of enemies and friends with his attacks on alleged Communists in government, with a suddenness that shocked the capital.

He had been ill for a number of weeks but did not enter the hospital until last Sunday. The hospital said he was "seriously" ill, but never publicly put him on the "critical" list.

McCarthy's malady was not so-called infectious hepatitis, a virus-caused disease. Medical authorities said McCarthy's ailment, acute hepatitis, is organic and is not caused by any external agent.

A Public Health Service official who has spent his life studying liver maladies said there are some 100 different kinds of organic hepatitis. They all manifest similar symptoms but have different causes.

"There are a whole host of conditions which could have preceded the senator's acute attack," he said. "Even if there had been an autopsy, the basic cause that produced it probably never would have been known anyway."

Ellender Sends Condolences Mrs. McCarthy did not authorize an autopsy, and there will be none.

Messages of condolence poured in to McCarthy's widow, the beautiful Jean whom he married in 1953.

President and Mrs. Eisenhower and former President Truman voiced their sorrow, though the President and former President had been targets of his attacks. Others who had been his enemies in life availed themselves of the rule to say nothing ill of the dead.

Funeral services for 22 senators have been held in the Senate Chamber since 1886. There were some before that but no record has been kept on them. (Continued on Page 5, Column 4)

## MAY FESTIVAL

## Jefferson Parades To a Calypso Beat

By MIKE FORBES  
Capital Journal Valley Editor

"Hill and gully riders, hill and gully..."

JEFFERSON (Special)—"Springtime on the Santiam" came to this bustling little town Friday with a Calypso beat as high school students joined in their annual May festival and parade.

The high school's prize winning band led the lengthy parade down Second street through the town playing the rollicking Calypso song, "Hill and Gully Riders," and "The Music Went Round and Round."

The band was followed closely by Queen Barbara Jeanne Hart and her escort, King Frank Marshall.

Ankeny Grange won sweepstakes prize with its float depicting a fishing camp, with a realistic campfire. It also placed first in the Grange and farm division.

Other prize winners follow: Churches, First Christian Church.  
Fraternal, Civic, Rebekah Lodge.  
Commercial, Cobb Manufacturing Co.  
Garden clubs, Wedding Ring Club.  
High school and affiliates, freshmen.  
Grade school, eighth grade.  
Saddle horses, Everett Struckmeier.  
Original costume, Jeanine Grizel.

The Salt Lake City conference, third in a series of regional Republican meetings, faces a "unique challenge," Eisenhower told the GOP leaders assembled there.

It was in the West, he said, that GOP "fared best well in the 1956 elections."

In all the states except Arizona, New Mexico and Utah the national Republican ticket lost ground from 1952 in the percentage of total vote.

The most disturbing factor was the total vote for Congress which dropped from 55 per cent in 1952 to 49 per cent in 1956. The President said.

The party needs to know, he said, why substantial gains elsewhere occurred while the West was slipping. When the answers are found, he said, "I hope we can regroup our forces and make a vigorous start to correct the situation next year."

Ginger and 4th Hubby Separate HOLLYWOOD (UP)—Actress Ginger Rogers, 45, announced Friday that she and her fourth husband, Jacques Bergerac, 39, former Paris lawyer turned Hollywood actor—have separated.

Through a spokesman Miss Rogers said Bergerac moved out of their Beverly Hills home Thursday. She said she'll file suit for divorce next week on grounds of mental cruelty.

## 12 Chrysler Plants Idled

DETROIT (UP)—A series of wildcat strikes triggered by a dispute over job transfer rights shut down 12 Chrysler Corp. plants in the Detroit area Friday, idling nearly 40,000 workers in the past 24 hours.

The dispute stopped production of Plymouth, Dodge and Chrysler cars.

The company said 14,000 workers in Dodge and Plymouth plants were idled Thursday night and another 25,000 were idled Friday as material shortages affected other plants.

Both the company and the United Auto Workers Union said the strikes that resulted in the company sending home workers by the thousands were not authorized.

## House Group Vetoes Flood Surety Funds

WASHINGTON (UP)—The House Appropriations Committee refused Thursday to approve a \$9 million dollar allotment to finance the federal flood insurance program approved at the last session of Congress.

The committee's action was taken in approving an omnibus appropriation bill allotting a total of \$79,840,788 to miscellaneous agencies, mainly for use during the remaining two months of the present fiscal year.

This was \$70,064,875 less than President Eisenhower requested, the 46 per cent cut boosting to \$1,263,457,124 the total reductions made by the committee or the House on 11 money bills this year.

Based on total requests for \$15,555,615,566 to date, the over-all cut is 8.1 per cent.

The Senate has not yet acted on any of the regular appropriations bills.

In turning down the \$9 million dollar allotment, the committee recommended instead that the agency administering the flood insurance program use \$325,000 it now has for further study to develop "a more workable plan."

## SAYS FUNDS USED IN LOBBYING

By WILLIAM WARREN  
United Press Staff Correspondent

Gov. Robert D. Holmes said today he was bringing an abrupt stop to a program through which, he said, Oregon's two previous Republican governors had contributed nearly \$60,000 of state funds for promotion of a so-called "partnership" power development.

The action removed Oregon from the Pacific Northwest Governors' Power Policy Committee, which Gov. Holmes called an arm of the private power lobby.

Gov. Holmes said the records showed that unapproved reports of the committee's technical engineers had been used recently to support the position of Idaho Power Co. in the Hells Canyon controversy.

Gov. Holmes said the records showed that unapproved reports of the committee's technical engineers had been used recently to support the position of Idaho Power Co. in the Hells Canyon controversy.
