

Amnesia Story Hoax, Admits AWOL Marine

Seattle Railroader
Arrested by FBI
After Prints Check

SEATTLE (AP)—A railroad timekeeper who told Seattle police May 3 he could remember nothing about himself prior to September, 1955 and asked who he was, was arrested yesterday by the FBI as a deserter from the Marine Corps.

Richard D. Auerbach, special agent in charge of the FBI office here, said a fingerprint check showed the man who called himself James John Kelly is really Joseph James Krankotz Jr., Butler, Pa.

WALKED AWAY IN 1955

Auerbach said Krankotz walked away from a Marine Corps training camp at Twenty-nine Palms, Calif., Sept. 20, 1955.

Krankotz admitted to the FBI his story of an amnesia attack was a hoax.

Krankotz's amnesia story first gained the spotlight last week when he and his wife asked for aid in identifying him. He said he was plagued by the uncertainty of not knowing whether he might have another wife somewhere.

Auerbach said Krankotz told officers Monday night that he never had been married before.

CAN'T EXPLAIN ACTION

Krankotz's earlier story had been that he remembered nothing of his identity after he awakened in a boxcar in Seattle in 1955. He said the initials "J. J. K." on his wrist watch and a tattooed "J.K." on his arm led him to take the name of James John Kelly.

He said after his arrest that he had known he would be apprehended some time, with his fingerprints on file, but that he couldn't explain why he acted as he did.

His wife has three children by a previous marriage. She became Mrs. Kelly last October, and is expecting another child in a few months.

Euratom Unit Urges Power Plants Speed

PARIS (AP)—A three-man committee of the European Atomic Commission — Euratom — Wednesday urged speedy, large-scale development of nuclear power to protect West Europe against future interruptions in its oil supply.

Reporting after a six-month study, the three experts said the shortage of available power compared with Western Europe's needs "threatens to become a major brake on economic growth."

The report pointed out that the recent Soviet crisis demonstrated the vulnerability of the supply of one of the most important energy sources, oil.

The three experts are Louis Armand of France, Franz Etzel of West Germany and Francesco Giordani of Italy. They reported to the governments which recently agreed to pool their atomic development programs under Euratom — France, West Germany, Italy, Belgium, Holland and Luxembourg.

The three experts estimated that by joining their efforts, the Euratom nations can develop nuclear power capacity of 15 million kilowatts a year in the next 10 years.

Forest Group Will Organize Salem Chapter

A Salem chapter of the American Forestry Assn. will organize at 7:30 p.m. Monday at a meeting in Waller Hall, Willamette University.

Bob Hostetter of the Bureau of Land Management said that the group will serve five surrounding counties to promote good forestry practices.

A panel will discuss "Forestry for Foresters," with Walt Thompson as moderator. On the panel will be Charlie Ladd and Dick Smith of the State Forestry Department, and Bruce Starker, representing a private lumbering firm. Charles Ross will show a film on farm forestry, Hostetter added.

Elks Planning Mother's Event

Salem Elks Lodge will have its Mother's Day program Thursday evening starting at 7 o'clock, with members of the lodge, their wives and families attending. A buffet supper is to be served.

Marion County Representative Guy Jones will be the speaker and musical numbers will be presented by members of the North Salem Ensemble. Ladies are to be presented gardenia corsages and the men carnation boutonnieres.

Dr. W. C. Utter is chairman of the committee arranging the Mothers' Day program.

Japan Asks A-Arms

TOKYO (AP)—Prime Minister Nobusuke Kishi said today Japan has been demanding an end to H-bomb tests—is entitled to possess atomic weapons for self-defense. He took a new sighting on Japan's no-war constitution.
